

\$3,200,000 UNIVERSITY BUILDING PROGRAM FOR GEORGIA FAVORED BY PUBLIC WORKS

SELF-REGULATION FOR OIL INDUSTRY IS NEAR APPROVAL

Agreement, Including Provision for Limitation of Production, Is Bared on Eve of Presentation to F. D. R.

ACCORD PUTS BAN ON PRICE-FIXING

National Petroleum Agency Created To Exert Virtual Dictatorship in Industry's Affairs.

WASHINGTON, Dec. 8.—(UP)—An agreement for rigid self-regulation of the oil industry, providing for careful limitation of production, was made public by the petroleum administration board tonight as a prelude to its expected approval by President Roosevelt.

The agreement, if put into effect, will avoid price-fixing for the industry, which had been ordered by the government but delayed to permit the oil men themselves to establish control.

During the day, Ickes had notified President Roosevelt that an agreement between the oil administration and the industry was imminent.

The tentative agreement sets up a national petroleum agency, a voluntary association of oil companies, which becomes virtual ruler of the industry under supervision of the oil administration.

This association has power to discipline members who violate its rules by cutting off deliveries of "hot oil."

Provisions against "hot oil"—oil produced in violation of production restrictions—are included.

The agreement's production limitation provision says:

"Total crude oil stocks in the United States on July 1, 1934, shall show no increase over December 1, 1933, and the decrease, if any, shall not exceed 10,000,000 barrels. Total gasoline stocks in the United States on July 1, 1934, shall not exceed 40,000,000 barrels."

This is in accordance with the policy of seeking to liquidate the surplus of petroleum products slowly without disrupting the orderly marketing processes of the industry.

Members of the national petroleum agency will "participate in proportion to their interests as fixed by their respective subscriptions hereto."

A board of governors consisting of one governor nominated by each member is established to control and manage the association. It is to elect an executive committee of five to conduct the organization's affairs within the whole board is not in session.

The board of governors may "prescribe policies, rules and regulations for the government of the association and the conduct of its business."

Each of the four states, hold and in an orderly way dispose of surplus gasoline which threatens the stability of the oil price structure in an effort to bring the price of gasoline

County Home Official Kills Man He Barred

BATAVIA, Ill., Dec. 8.—(AP)—Fate played a strange and fatal trick on John Maxwell, 78.

Maxwell applied for admittance to the Kane county home for the poor yesterday. Permission was refused on the ground that he did not have an admittance card signed by the supervisor of his township.

Half an hour later Maxwell was fatally injured when he was struck by an automobile driven by Ray Bartholomew, assistant superintendent of the home—the man who had refused the aged applicant admittance.

CUT IN PROSPECT FOR CITIES SELLING ELECTRIC POWER

Tentative Agreement for 10 to 12 Per Cent Reduction Made; 25 Georgia Towns Affected.

A rate reduction for municipalities distributing electric power to their own citizens was in prospect Friday following a conference between representatives of the municipalities and Charles A. Collier, vice president of the Georgia Power Company.

It was announced that a tentative agreement calling for a reduction of between 10 and 12 per cent was made. In all there are 25 cities and towns in Georgia which buy current from the power company and operate their own distributing plant.

Mr. Collier, after hearing the demands made by the representatives of the municipalities offered a total reduction of \$500,000 on the approximate \$700,000 bill paid by the towns.

The municipal representatives countered with a proposal that the cut be made and that in addition a further reduction of 5 per cent be granted to towns which have no power plant within 10 days after they are submitted.

Mr. Collier took the proposition under advisement. He made it clear that he was not committing the power company to acceptance, saying that he would confer with his fellow executives of the company before making a definite answer.

Chairman Jud P. Wilhoit, of the public service commission, sat in on the meeting. He said that the commission had not demanded any action on the part of the power company.

St. Pierre Captures Officers' Kidnapers

HALIFAX, N. S., Dec. 8.—(AP)—Four kidnaped members of a Royal Canadian mounted police cutter were liberated and their captors, members of the crew of the Kromhout, were taken into custody by French authorities at St. Pierre, M. I., last night, it was announced today.

French police not only "got their man" but also captured the captors of the four "mounties" as well.

Under cover of darkness, the Kromhout slipped into the little French possession off the coast of Newfoundland and sought to land its prisoners.

Warned to be on the lookout for the Kromhout, as had all shipping in the north Atlantic, police arrested Captain Ross Mason and the crew of the Kromhout, a suspected run-runner.

ALLEGED BRIBERY OF M'RAE AIDED BY EX-PARTNER

Abraham Rabinovic Deposes That He Was Given \$1,500 of Alleged \$3,000 Bribery Fee.

Details of the alleged bribery transaction which figures in the charges made by Solicitor-General John A. Boykin, which form the basis of William G. McRae's side of the double libel suit now being tried before Judge Hugh M. Dorsey, were aired in city court Friday when the court admitted after a hard-fought battle a deposition by Abraham Rabinovic, said to be a former law-partner of McRae.

In outlining the incidents said to have led up to the alleged bribery-taking, Rabinovic in his deposition stated that during a conversation which took place in McRae's automobile on the day preceding the alleged paying of \$3,000 to McRae, then justice of the peace at Miami Beach, for holding over Bert Schreiber on a charge of embezzlement, McRae asked him, "I presume he gave it to me to show his good faith in the association we were going to have."

McRae is then alleged to have said "I will take my chance on him." Rabinovic's statement quotes McRae as having told him on the succeeding day, after Schreiber had been bound over to trial, that he had kept his promise; "Well, I have kept my promise; now I want Cohen to do his end," and that "it comes in handy; I am going to Georgia."

On cross-examination, Rabinovic was asked if he saw Cohen give McRae the money, to which he is alleged to have replied, "I did not."

In acknowledging that he himself received \$1,500 of the alleged bribery fee, Rabinovic said in his deposition, "I presume he gave it to me to show his good faith in the association we were going to have."

On cross-examination in the deposition Rabinovic said that he was at Caracas, Venezuela, when the American ambassador at that point called him and asked if he would give an affidavit for Boykin and that he afterward received a direct communication from Boykin asking if he would come to Atlanta; that he had later letters suggesting that his deposition be taken at San Juan, Puerto Rico, where he had then gone to promote an exposition.

Rabinovic further admitted on cross-examination that Boykin sent him to Puerto Rico a deposition taken at that time by the American man, which deposition he went over on the boat en route to New York, where his own deposition was finally taken, and that Boykin paid him \$400 to cover his expenses incurred on the trip.

Bank's Deposition Entered.

Through deposition of A. Edmonds, vice president of Washington Park National Bank, Chicago, Boykin sought to prove transmission of the \$3,000 from the Chicago bank to a cashier's check of the Chicago bank to the telephone company for the \$3,000. Other depositions included one by C. Chadwick, president of a safety deposit vault company which purchased vaults originally owned by Myer-Kiser bank, at Miami, where

Mary Pickford Seeking Divorce From Fairbanks

MARY PICKFORD. DOUGLAS FAIRBANKS.

LOS ANGELES, Dec. 8.—(AP)—Charging mental cruelty, indifference and neglect, Mary Pickford, film actress, today filed a suit for divorce from Douglas Fairbanks, motion picture actor, who is in England.

Filing of the action confirmed reports of a permanent separation and set at rest numerous rumors of a reconciliation.

The complaint, prepared by Lloyd Wright, the actress' attorney, sets forth:

"That Fairbanks lacked consideration for his wife's feelings and sensibilities; that he publicly announced he had no interest in life except travel and that he had abandoned his duties of matrimony; that he absented himself from home for months at a time

and that in view of the position of the husband and wife, this caused much public criticism and unfair comment."

Doug's Indifference.

The complaint also states that the specific neglect began in June, 1930, after which time Fairbanks is asserted to have disregarded his wife's wishes and to have assumed an attitude of indifference toward their marital status.

In a formal statement, issued shortly after the suit was filed, Miss Pickford said:

"For the past several years my married life has become increasingly unhappy. Being convinced that under

U. S. LIQUOR PLAN SHAPED TO FOSTER USE OF WINE, BEER

Interdepartmental Committee Asks \$2.60-a-Gallon Tax; Seeks To Aid Foreign Commerce.

WASHINGTON, Dec. 8.—(AP)—A liquor program to encourage an expanded foreign revenue, an enlarged two-way foreign trade and to foster a national beer and light wine appetite along with discouraging the bootlegger was proposed to congress today by the president's interdepartmental committee.

The report submitted to the house ways and means committee by Acting Secretary Henry Morgenthau Jr., of the treasury, proposed a \$2.60-a-gallon tax on distilled spirits, estimated to be capable of raising \$500,000,000 of annual revenue, including \$150,000,000 for beer. The beer tax would remain at 50 cents a barrel, the present levy for the 3.2 beverage.

At the same time, the committee suggested to the lawmakers that they grant the president power to negotiate with liquor countries for reciprocal trade agreements under which the United States would expect the right to sell its products in countries from which it bought liquor.

Move Under Way.

This move already is under way. The most recent evidence of it came today with the visit of Sir Ronald Lindsay, the British ambassador, with Secretary Wallace, presumably to discuss a liquor based barrier between the United States and Great Britain.

The interdepartmental committee members disclosed that their report had been framed with view to fostering a reasonable price for liquor consumers to battle bootleg opposition and encourage the drinking of light wines and beer.

The report will become public for the first time when the fiscal committees of both the house and senate convene together to begin work on a liquor tax bill.

The committee took cognizance of the likelihood that the states would seek to augment their incomes from liquor taxes. It proposed co-ordination of state and federal liquor taxation "on some basis equitable to both."

Suggestions already have been unofficially made that the federal government collect liquor taxes and allocate them to the states.

Distillers Gather.

With rumors of threats in the air of government action to force down the price of liquor, distillers are leaving no stones unturned in an effort to stop the ordinance from taking effect and planned a personal appeal to the governor to keep John Harbort from enforcing the law.

Dr. James M. Doran, head of the recent formed distilled spirits institute, the distilling code authority, expressed no concern over threats of government intervention.

"All these things, these price and distribution troubles, are going to be history within a week," Doran said before the distillers convened. "There are no grounds for anxiety to see the business get under way on a fair price basis as the distillers themselves."

The \$2.60 tax on distilled spirits would be an increase from the present rate of \$1.10 a gallon.

Other taxes proposed by the committee included: 16 cents a gallon on wines of less than 14 per cent alcohol content, compared with the existing 10 cents.

General 30-Hour Week Predicted by Johnson

NEW YORK, Dec. 8.—(AP)—Eventually industry in the United States will operate under the 30-hour week, predicted General Hugh Johnson, recovery administrator, just before he left for a plane trip to Washington today.

"Eventually we will have to come to it," he said. "Our figures show that if we return to the 1928-1929 standard of prosperity there would still be 4,000,000 unemployed. And there would be no other way to take up the slack without having a 30-hour week."

Asked for his reaction to Alfred E. Smith's reference to "billion dollars" the administrator replied:

"What does Al Smith know about any kind of dollars?"

COURT TO PASS ON AUGUSTA LICENSE ORDINANCE DEC. 15

Temporary Restraining Order Issued; Drys Plan Appeal to Governor To Stop Liquor Legalization

AUGUSTA, Ga., Dec. 8.—(AP)—Dry leaders today obtained a court order temporarily restraining the issuance of liquor licenses in Augusta and planned an appeal to Governor Talbot to use his influence in preventing the sale of whisky in this state, which laws say is bone dry.

The order restraining the city collector from issuing licenses was made returnable before Judge A. L. Franklin in superior court at 10 a. m. (E. S. T.) on December 15, 15 days before the ordinance, passed by city council Wednesday night, goes into effect.

The ordinance called for a tax on retail and wholesale liquor dealers much in the same fashion the sale of beer has been licensed here, in Atlanta, Savannah, and numerous other Georgia cities despite the state law, which prohibits anything that looks like beer.

Some arrests have been made but for the most part juries found for the defendants. The injunction, against W. H. Bagby, city collector, was obtained by W. H. Fleming, former congressman and militant dry, as attorney for a group of prohibition leaders.

Meanwhile, the drys were leaving no stones unturned in an effort to stop the ordinance from taking effect and planned a personal appeal to the governor to keep John Harbort from enforcing the law.

Dr. James M. Doran, head of the recent formed distilled spirits institute, the distilling code authority, expressed no concern over threats of government intervention.

"All these things, these price and distribution troubles, are going to be history within a week," Doran said before the distillers convened. "There are no grounds for anxiety to see the business get under way on a fair price basis as the distillers themselves."

The \$2.60 tax on distilled spirits would be an increase from the present rate of \$1.10 a gallon.

Other taxes proposed by the committee included: 16 cents a gallon on wines of less than 14 per cent alcohol content, compared with the existing 10 cents.

CITY EMPLOYEES TO GET DECEMBER PAY IN CASH

Cash for payment of December salaries for municipal employees was assured Friday when it was announced that the financing proposal of Alderman E. Gilliam, chairman of the finance committee, had been approved and that an issue of scrip to meet the payments would be absorbed by leading Atlanta concerns.

Mayor James L. Key, following Gilliam's report, vetoed a proposal to sell \$470,000 worth of 1933 tax if, as a special called meeting of council since July of month, it is necessary to expedite the scrip issue.

Under the plan the concerns will deposit more than \$400,000 in Atlanta banks in order that the December scrip issue may be paid in cash. The scrip will be turned over to those posting the money as security.

Atlanta will save about 1 per cent net on the transaction, according to plans. The scrip will be issued bearing interest at 6 per cent from the time of issuance. It bears interest at the rate of 7 per cent.

PROJECTS INCLUDE \$737,000 FOR WORK AT GEORGIA TECH

Statement by National PWA Official Says Program of Board of Regents Has Been Placed "In Favored Class."

FUND TO BE SPENT ALL OVER SYSTEM

Way Found To Overcome Constitutional Limitation on Borrowing Limit of State University.

WASHINGTON, Dec. 8.—(AP)—Construction projects totaling \$737,000 for the program of the board of regents of the University of Georgia system have been placed in the favored class, it was said today by an official of the national public works administration.

The regents' building program proposes several projects over the state and this fact was said by the public works official to have added weight to the request for funds, because of the widespread employment that would result.

A constitutional limitation on borrowing for the state university system would be avoided by the regents assuming responsibility for the loan, repaying the \$15,000 from internal revenues of the institutions.

The board of regents' public works building program follows:

University of Georgia, \$882,400 for new work; Georgia Institute of Technology, \$677,000 new work and \$60,805 repairs; Evening School of Commerce, Atlanta, repairs only \$15,000; West Georgia College, Carrollton, \$32,900 new work and \$15,800 repairs; Georgia College at Dahlonega, \$163,600 and \$20,000; Georgia State Woman's College, Americus, \$29,850 and \$4,200; Georgia Normal and Agricultural College, Albany, \$64,600 and \$8,600; Abraham Baldwin College, Tifton, \$137,450 and \$28,000; Central Plains Experiment station, Tifton, \$22,850 and \$700; South Georgia State College, Douglas, \$68,900 and \$16,775; Georgia State Woman's College, Valdosta, \$145,000 and \$10,000; Middle Georgia Industrial College, Savannah, \$49,100 new work and \$10,000; South Georgia Teachers' College, Statesboro, \$10,000 and \$2,000; Middle Georgia Teachers' College, Cochran, \$108,800 and \$14,535; Georgia State College for Women, Milledgeville, \$265,500 and \$26,400.

Loan applications in the favored class before the public works board are those for which the board is offered adequate security and which give the greatest number of applications for the evening school of commerce at Atlanta and one for buildings at other institutions. Later the applications were combined.

The application was docketed as the "Atlanta Night School." It was explained that originally no applications were presented by the regents, one for the evening school of commerce at Atlanta and one for buildings at other institutions. Later the applications were combined.

Cann, Freed by Police, Indicted for Murder

An indictment charging murder was returned by the Fulton county grand jury Friday against G. E. Cann, who was exonerated in recorder's court several days ago in the fatal shooting of Arthur Matthews, Jr., at 1000 Central avenue when he found him in the company of his wife. Cann claimed that Frazier "stole" his wife.

Richard Frazier, James Greer, Joe Reese and Will Roberts were indicted for robbery in connection with street-car holdups.

A true bill also was returned in the case of A. W. McCall, now in Grady hospital as the result of a beating at the hands of employees of Thom McCall shoe shop.

McCall is charged with robbery of \$1 taken from E. W. Hutchings, one of the employees who attacked him when he attempted to holdup the place, according to the indictment.

TALMADGE SIGNS PRISON CONTRACT

Document on Way Back to Washington for Approval of Ickes.

The contract for the building of Georgia's new state prison by the public works administration was en route to Washington Friday night bearing the signatures of Governor Eugene Talmadge and the members of the Georgia prison commission. As soon as it is signed by Public Works Administrator Ickes, bids on the construction will be asked for and the contract let.

Hugh Howell, Atlanta attorney, who has represented the state in negotiations leading up to the grant of \$1,500,000 for the prison, said Friday night that Mr. Ickes would approve the agreement immediately and added that he expected actual construction to get under way before January 1.

The contract approved Friday is between the Public Works Emergency Leasing Corporation of Delaware, headed by Mr. Ickes, and the state of Georgia. The corporation was set up in order to get around Georgia's laws prohibiting loans being made by the state. When the prison is completed the governor and the prison commission will lease it from the federal government, retaining it by lease until accrued rentals have paid the cost of construction, less 30 per cent, which is an outright grant. The property then will be deeded outright to the state. Under the terms of the lease Georgia will pay for the new institution in 15 years.

Only Six Days More Remain Before Santa Claus Arrives

By PARADE DIRECTOR.

Just today and Sunday, and four more days of next week, before old Santa drives into Atlanta with his real, live Alaskan reindeer, his Eskimo dogs, his Eskimo helpers and a large number of his assistants who will gladden the hearts of children at Yuletide.

Just six more days before the big event that will draw thousands and thousands to the downtown district to see one of the most unusual, beautiful and fantastic parades ever held in Atlanta. It is going to be a gala occasion. There are going to be clowns, bands, floats, totem poles, soldiers, Boy Scouts, Girl Reserves, in fact there will be some representatives from very nearly every organization in Atlanta and old Santa will be right in the middle of everything with his sleigh and real live reindeer.

In another page of today's issue.

FILLING STATIONS ASK FOR DISCARDED TOYS

The American Oil Company of Atlanta has placed in each of their residential service stations a series of discarded toys. These toys will be repainted and repaired by city firemen and will be used for the American Legion Christmas tree and Twelfth, Buckhead, Peachtree creek, Spring and Ponce de Leon and Boulevard, Highland and Blue Ridge, Piedmont and Twelfth, Buckhead, Peachtree creek, Spring and Ponce de Leon, and North and Edgewood, Whitehall and Park, Georgia avenue and Washington and all Atlantans who have old toys are requested to leave them at any of the above stations.

GRAU OVERTHROW IS BELIEVED NEAR

Revolutionary Junta Meets Secretly With Name of Mendieta Liked

HAVANA, Dec. 8.—(AP)—The revolutionary junta which overthrew President Carlos Manuel De Cespedes met secretly tonight at military headquarters at Camp Columbia, and a storm of rumors that a change was imminent in the Cuban government spread over the city.

While it was generally believed the junta was discussing the political fate of President Grau San Martin, there was no confirmation of his imminent resignation.

It was recalled, however, that Grau often has said his resignation was in the hands of this original junta and that he would follow its will.

The name of Carlos Mendieta, powerful nationalist leader, was frequently mentioned. The newspaper information went so far as to predict that Mendieta would be named president under the new plan of conciliation expected to combine opposing factions of the Cuban government.

Colonel Fulgencio Batista seemed more secure than ever in his post at the head of the Cuban army, and the fact that he had succeeded in maintaining order today was considered helpful to his future.

Batista threw a force of heavily armed soldiers, sailors and marines into Havana today in the face of trouble threatened by certain elements in protest to the "50 per cent law" which says that half of all a firm's employees must be Cubans.

Troops covered the city throughout the evening, searching buildings where it was believed trouble was being hatched. Batista's guarantee that the Cuban Electric Company would be protected against strikers apparently had something to do with the fact that the threatened strike did not materialize, although it was supposed to have started at 9 a. m. today.

Trade Records Wide Gains As 2,500,000 Obtain Jobs

Treasury Is Jubilant as Billion in Securities Is Oversubscribed Over Threefold.

WASHINGTON, Dec. 8.—(AP)—Treasury officials, jubilant at the big oversubscription attracted by the new billion-dollar securities issue tonight, said good-bye to one of their number, Henry Bruere, and interpreted his retirement from active government service as indicating that one phase of the recovery effort was nearly completed.

He had the task of salvaging what could be saved from the wreckage of the nation's banking system following the panic of last spring.

Henry L. Hopkins, civil works administrator, revealed today that a telephone poll shows 2,500,000 persons have been given jobs by the CWA since the inception of the program a few weeks ago. Most of these, he said, have been transferred from relief rolls.

The administrator, however, was not fully satisfied with the progress of the drive to put 4,000,000 men to work by next Saturday and warned local authorities that politics must not interfere with appointments. He served notice that those communities for which offices do not exist, he will find their quotas transferred to other sections.

Bruere, president of the Bowers Savings bank, one of New York city's largest, came to the treasury on a dollar-a-year basis. Today he informed President Roosevelt that he was returning to his duties there.

President Roosevelt expressed his gratification for the assistance of Bruere, saying the latter had stayed three weeks longer than he had intended.

Meanwhile, encouraging reports were made of progress in the campaign to lift the country out of the clutch of depression.

The treasury said the offer of \$600,000,000 in one-year, 2-1/4 per cent certificates of indebtedness had drawn subscriptions totaling nearly three times that amount in the one day in which the books were open. The total response was about \$2,714,000,000. The \$600,000,000 will be used to pay December 15 maturities aggregating \$272,000,000, public debt interest requirements of \$114,000,000, and the remainder added to the general funds of the treasury.

Codes Increased.

During the day the number of industrial codes in operation was increased to 150, with the signing of seven new ones by President Roosevelt, including that for the furniture manufacturing industry. Meanwhile the NRA postponed profiteering hearings on the basis of "political considerations," an announcement that the surplus relief corporation was active in the hog market again with recent purchases of some 100,000 head, and a RFC advance of \$22,900,000 to 112 northwestern banks.

Other developments of the day included the allotment of \$75,500,000 of public works funds, an effort by the civil works administration to oust officials whom it said had made appointments based on "political considerations," an announcement that the surplus relief corporation was active in the hog market again with recent purchases of some 100,000 head, and a RFC advance of \$22,900,000 to 112 northwestern banks.

Bruere said he was "very enthusiastic over what I have seen here and I return to New York very enthusiastic over the whole situation and the way it is moving ahead."

He came to Washington about two months ago without official title beyond that of liaison man for President Roosevelt. In general his activities were directed at co-ordinating the various government agencies engaged in extending credit to the country, which he dealt principally with closed banks.

882 Reopened.

Latest figures at the office of the controller of the currency showed that of the 1,446 banks that were unable to open at the conclusion of last March's general banking holiday, 882 had been licensed to reopen or thrown into receivership, and reorganization plans for 564 had been approved. The latter will be licensed when they have carried out their part of the reorganization agreement. In some cases this will take time, but the treasury's part in the process has been virtually completed, and there remain but 187 institutions which have not been licensed to reopen.

The banking situation, so far as the treasury is concerned, now centers upon the progress of the Federal Deposit Insurance Corporation, which begins guaranteeing bank deposits of \$2,500 on January 1. All banks that are members of the federal reserve system, automatically participating in the insurance provisions. The principal problem is, and has been, the more than 8,000 non-member state banks.

Solvency Stressed.

The latest figures showed that 6,748 of these had applied for membership, and 5,180 of these had been examined by a force of 1,641 staff workers of the corporation. Examinations are to be completed by December 15. In determining the eligibility of these

NEW YORK, Dec. 8.—(AP)—Trade and business have resumed forward strides following the lull in the closing week of November, the Dun & Bradstreet weekly review said today.

"With no uncertain force," asserted the agency, "consumer buying was manifestly immediately following Thanksgiving, and to the benefit of the Christmas demand was added the acceleration incident to the opening of an entirely new field of merchandise revenue, with the definite end of the 13-year period of prohibition restrictions."

"The sudden shifting of so many men and women from relief roles to gainful occupations through the efforts of the civil works administration has brought encouragement to nearly every section of the country, giving an impetus to retail demand, especially in necessities, which has been widespread."

"Most of the industrial indices are holding firmly to their previous position while some are moving upward slowly, the rise offering encouragement because of the contra-seasonal trend."

"While retail sales in some parts of the country failed to achieve the high quota estimated, the total kept well above that of the corresponding week last year, which was nearer the peak of the holiday season. Based on the trend thus far established, reports are almost uniform in placing the season's volume at the best level in two years."

Prison Delivery Plot Frustrated at Joliet

JOLIET, Ill., Dec. 8.—(AP)—A plot to deliver a large number of convicts from the old prison of the state penitentiary perhaps under cover of a riot was broken up today by penitentiary officials.

Six leaders in the revolt were placed in solitary confinement, and warrants were issued for the arrest of Mrs. Jeanette Lator, of Rockford, Ill., and her husband, whose full name was unknown.

Prison officials said the Lators were relatives of Donald Loftus, suspected kidnaper serving a sentence of one year to life for robbery with a gun. He had been suspected of the kidnapping of Gordon Sawyer, banker of Tucson, Ariz. He was sentenced on the robbery charge from McHenry county.

An investigation had been under way in the prison since a gun and supply of ammunition nailed up in a wooden box was tossed over the west wall of the penitentiary a week ago. A guard found the box, removed the gun, and left the container in the courtyard until an inmate attempted to snare it with a wire extended through a wall ventilator of one of the prison shops.

Fires Raze 3 Homes, Killing 14 Occupants

By The Associated Press.

Fourteen persons lost their lives and three others were seriously burned yesterday as fire and explosions destroyed homes in three states—Michigan, Wisconsin and Illinois.

Seven of the victims died at Sault Ste. Marie, Mich., in a fire which apparently started from an overheated stove. The dead were Mrs. Genevieve Hibben, 31, and her four small children, and Mrs. Erlene Orr, 19, and her baby daughter. All were asleep at the time of the fire, which had gained considerable headway before neighbors discovered it.

At Friendship, Wis., five members of the family of William Bratley were burned to death when an explosion and fire destroyed his two-story log home. The blast followed an attempt to start a fire with kerosene.

A similar accident caused the death of Miss Gladys McDaniels, 17, and a baby as the home of R. E. Hendrix was destroyed near Knoxville, Tenn.

Banks, emphasis has been placed on solvency and not upon liquidity. Walter J. Cummings, chairman of the reorganization plans under consideration and 169 have had such plans disapproved and, presumably, are working out other more acceptable to the treasury.

POWERS CONSIDER DEVELOPED LEAGUE

Paris Only Major Capital Opposing Drastic Changes.

By The Associated Press.

Conversations from which some statesmen hope will come a broader League of Nations were conducted Friday in London, Paris, Berlin and Rome.

Paris Foreign Minister Paul-Boncour said France would resist any radical attempt to change the League, but is willing to consider minor reforms in it.

Other French statesmen indicated that France may act as a mediator in efforts to win back powers that have withdrawn from the League, and that this matter will be discussed in talks here and in Praha and Warsaw by M. Paul-Boncour.

Downing street seemed to believe disarmament was the paramount issue, but it was authoritatively indicated that Great Britain would entertain no proposal to reorganizing the League.

Sir John Simon, the British foreign secretary, had a round of talks with ambassadors and disarmament workers.

Joseph A. C. Avelon, the secretary general of the League, left Geneva for London and Paris, where he was scheduled to confer on League and disarmament problems.

Fulvio Suvich, the Italian under-secretary of state, will leave for Berlin Sunday to try to get a definite statement on the German arms policy, it was reported.

Behind the decision to send Suvich, it was believed, lay Premier Mussolini's disappointment at Chancellor Hitler's failure to apprise him of Germany's disarmament intentions.

It was believed, however, that the Geneva body will be divorced from the Versailles treaty.

Merchants of Atlanta are prepared to take care of one of the greatest crowds of shoppers ever assembled here. Stores are stocked with the very latest creations in fashion, as well as up-to-the-minute styles for grown-ups. No one should wait for Santa's arrival to do their shopping. Right now would be a good time to select your gifts for the children.

Christmas gifts. Taste and wants can be much more satisfactorily provided for while the stocks are fresh and complete.

In The Constitution Sunday we are going to tell more about the origin of Santa Claus and how his coming is observed in many foreign countries. We will also tell you about the children which follow below are the ones selected today to ride in the parade with Santa Claus Friday night, December 15, 7-9:30 o'clock.

Dear Santa Claus: We are two little boys and we want to ride in the parade with you. We think it is nice of The Constitution to put on this Big Parade and we want to make a lot of little children happy this year. My Uncle Jimbo is going to join the "big brother" organization and we are happy to see him. We use some books and some books and we will be seeing you.

Yours truly,
JACK McNEILL,
138 Holiday Ave.
MILTON COOPER,
1081 Seaboard Ave.

Dear Santa Claus: I am a nice little girl, 6 years old, and I can read well now. Santa, please, if you can find a place for me to ride with you in the parade, I will never forget. I want a nice, big doll, table and chairs, and I want to be a nurse. I would like to have it written that I had the honor of being in the parade. I want a nice, big doll, table and chairs, and I want to be a nurse. I would like to have it written that I had the honor of being in the parade.

Hands Off.

"The principle now embodied in the law, in short," Eastman said, "is that railroad management must keep their hands off so far as labor organizations are concerned. That this principle is sound is not open to question. It is the best way to keep employees free American citizens and not a menial class subservient to the employing class. Whatever may have been the attitude of employees in the past, it is plain that today they are prepared to insist upon the right to bargain and deal collectively with their employers upon equal terms."

No Pressure.

Eastman suggested that the regional labor organizations must keep their hands off so far as labor organizations are concerned. That this principle is sound is not open to question. It is the best way to keep employees free American citizens and not a menial class subservient to the employing class. Whatever may have been the attitude of employees in the past, it is plain that today they are prepared to insist upon the right to bargain and deal collectively with their employers upon equal terms."

That all officers, supervisors and agents of railroads be notified that of influence or coercion of employees with respect to membership in labor organizations or choice of labor representatives or any interference with such organizations is illegal and not to be tolerated.

That employees who join a union or who legally solicit membership in such an organization must not be cautioned, reprimanded, threatened, penalized or otherwise subjected to pressure or discipline.

That all employees be advised by appropriate notice of their rights under the railway labor act.

That those railroads which have retained any control over the constitution and by-laws of any labor organization or whose officers or agents assist in selecting representatives of employees withdraw from all such participation or control.

That special privileges exclusively to members of any labor organization such as group insurance or contributions to relief funds, either make such privileges available to all employees or cease entirely.

That railroads which now audit the accounts and books of labor organizations or collect or assist in collecting dues and fees discontinue these services.

That all railroads cease to contribute financially in any way to the support of any labor organization.

That those railroads which have retained any control over the constitution and by-laws of any labor organization or whose officers or agents assist in selecting representatives of employees withdraw from all such participation or control.

Letters to Santa Claus

Children Writing Best 50 Letters Will Ride in Parade and Get Toy Out of Santa's Sack.

The spirit is in the air—it is everywhere—and there is but one answer and one explanation: SANTA CLAUS AND HIS REINDEER ARE COMING!

Prince of Love, sent from Atlanta to guide Santa to this city, is keeping the spirit of the season in the heart of dear old Santa is making his own Christmas tree of the nation. The expedition is speeding along on time and will soon be at the door of Alaska and into the United States.

As fast as the wind they are flashing through the air, their nearness spreading peace and good cheer on earth, good will toward men wherever they pass.

Out of moonshine ladders up the high, silver sky—out of twinkling stars and shooting stars—out of the framework of the firmament—from over the green branches of tall hemlocks and out of pathways among tough, gnarled trees—out of the coming with sleigh bells jingling. In a shaggy, warm, red coat with whiskers white as snow, whiskers glittering with frost spangles, this beloved dispenser of good cheer and happiness is coming.

Parade Features.

There will be numerous features in the parade this winter interest person of all ages and in all walks of life. It would not be fair to tell about them yet, as Santa Claus wants to keep some things secret so everyone will come to see for themselves just how different and thrilling this parade will be from anything ever seen here before. Moreover, in other stories we will tell you about the children which follow below are the ones selected today to ride in the parade with Santa Claus Friday night, December 15, 7-9:30 o'clock.

Dear Santa Claus: We are two little boys and we want to ride in the parade with you. GEN. CHARLES H. MUIR PASSES IN BALTIMORE

Commander of 4th Corps of Army of Occupation in Germany Dies.

BALTIMORE, Dec. 8.—(AP)—Major General Charles H. Muir, U. S. A. (retired), commander of the fourth corps of the army of occupation in Germany after the World War, died tonight at his home here following an illness of two weeks. He was 73 years old.

Born in Michigan on July 18, 1860, Major General Muir was graduated from the United States Military Academy with a standing of eighth in the class of 1882. He was in active service on July 18, 1924, and was the war-time commander of the 28th division (Pennsylvania national guard).

He was a captain during the Spanish-American War. Muir was awarded the Distinguished Service Cross for extraordinary heroism in action at San Juan, Cuba.

He also was awarded the silver star in 1900, the Distinguished Service Medal during the World War, the Legion of Honor (French), K. C. M. (British), and Croix de Guerre with palm (French). He received an honorary degree of doctor of laws from Western Maryland College in 1925.

COUNTESS OF ROSSLYN.

LONDON, Dec. 8.—(AP)—Britain's oldest peeress, the dowager Countess of Rosslyn, died tonight at the age of 94. She was a friend of Queen Victoria, Gladstone, and Disraeli, and her descendants number more than 70. She was the daughter of Henry Fitzroy, of Northampton, and married the fourth Earl of Rosslyn in 1866. She was a great-grandmother.

For 50 years the countess was considered one of the famous Victorian beauties and, in the days of Edward VII, a distinguished hostess.

W. O. MCINTYRE.

DANVILLE, Ky., Dec. 8.—(AP)—W. O. McIntyre, 57, mayor of Danville 20 years and co-publisher of the Danville Advance, died tonight at a hospital here following a stroke of paralysis. He was a native of Mercer county and had been connected with the Kentucky Advance since 1907. He was slated to have been elected mayor for his eleventh term at a meeting of the newly elected city council tonight.

L. J. HEITMULLER.

ST. PETERSBURG, Fla., Dec. 8.—(AP)—Louis J. Heitmuller, 70, retired editor of Pittsburgh, died here last night.

COUNT GOMBEI YAMAMOTO.

TOKYO, Dec. 8.—(AP)—Count Gombey Yamamoto, 81, twice premier of Japan and a naval hero of the Russo-Japanese war in which he served as commander in chief of the fleet, died here last night.

He had been seriously ill with a complication of diseases.

KARL JATHO.

HANOVER, Germany, Dec. 8.—(AP)—Karl Jatho, 60, who claimed to be the first man ever to fly a motor-driven airplane, died here last night. He claimed to have made his flight August 18, 1903, four months prior to the Wright brothers' feat at Kitty Hawk, N. C., December 17, 1903.

REV. H. B.

Federal Anti-Lynching Law To Come Before Group Jan. 7

Association of Southern Women Hears Reports on 27 Persons Killed in 11 States.

By W. F. CALDWELL.
Associated Press Staff Writer.

The subject of a federal anti-lynching law was brought forward in the Georgia Council of Southern Women for the Prevention of Lynching here Friday, after being told that 27 persons had suffered death in the United States this year to date through lynching.

Several members informally expressed approval of anything to curb lynching but the council itself took no formal action on the question. It recommended that the Association of Southern Women for the Prevention of Lynching consider the question at their meeting in Atlanta, January 31. The council expressed its "heartfelt appreciation" of the recent condemnation of lynching by President Roosevelt and Attorney-General Cummings and commended the steps taken by Governor Ritchie, of Maryland, and Governor Park, of Missouri, in lynching cases in their states.

"These were the more notable by a contrast with Governor Rolfe's abject surrender to the mob and the official inaction so commonly observed in such cases," the resolution by the council said, after several speakers had criticized the statement of the California governor relative to the San Jose lynchings.

Lynchings by States.
Of the lynchings by states this year, Mrs. Jessie Daniel Ames, executive director of the council, said that Georgia, Alabama, Louisiana and South Carolina had four each; Mississippi followed with three; Tennessee, two; California two; Maryland, one; Missouri, one; North Carolina, one; and Texas, one.

The alleged offenses of the victims as detailed by Mrs. Ames were: Rape, two; murder of white women, three; insult to white women, two; attempted rape, two; kidnapping and murder, two; burglary, two; striking white men, two; murder, two; homicide in self-defense, one; assaulting officer, one; drawing pistol, one; stealing whisky, one; impudence, one; no charge, two; as examples, three.

She said that probable penalties under the law had the victims been proven guilty would have been:

Nine would have had death, five imprisonment, one possible imprisonment, seven fined, five no punishment.

Of the methods of lynching she told the council, three of the victims were hanged, four shot and hanged, three flogged to death, thirteen shot, two burned and hanged, two beaten and hanged.

She made a written report of what she said her organization had found as to the attitude of the governors in the states in which the lynchings had occurred.

In Alabama she said a \$400 reward had been offered for apprehension of the lynchers, but she had been unable to get an interview with the governor.

Of the other states she described the following as the attitude of the governors:

California, approved lynching; Louisiana, no action or notice; Maryland, vigorous efforts to apprehend; Missouri, vigorous efforts to apprehend; Mississippi, refuses to commit himself; North Carolina, orders investigation after pressure; South Carolina, ordered investigation; Tennessee, no action or statement; Texas, complete silence; Georgia, no answer when lynchings were brought to attention of governor.

Letter From Tallmadge.
Later, however, a letter was read to the council which Mrs. W. J. Noel, of Forsyth, the chairman, said had been written to her by Governor Tallmadge. The letter contained the following statement:

"Lynching is generally a culmination of the people's impatience and resentment of the technicalities and delays of the courts."

"Lynching in the last analysis is anarchy and shows a disregard of the law."

"If the same effort and zeal were put forth in upholding the law that the mob has to put forth in a lynching, this country would be served a great deal better."

Mrs. Ames told the council that "I think the women are very much less committed to the ark of the covenant of states rights than men." Again referring to the filibustering to death of a federal anti-lynching bill by a southern senator, Mrs. Ames predicted that "if the southern senators and congressmen think southern women are considering the subject (federal anti-lynching legislation) they will not be so enthusiastic about filibustering."

She said the women's organization was determined to make a personal investigation of every lynching this year which involved a white woman. She referred to the declaration of the association that "public opinion has accepted too easily the claims of lynchers and mobsters that they are acting solely in defense of southern womanhood. In the light of facts, women dare not longer permit the claim to pass unchallenged nor allow themselves to be the cloak behind which those bent upon personal revenge and savagery permit acts of violence and lawlessness in the name of women."

CHRISTMAS SERVICE TO BE GIVEN DEC. 17

Ninth annual Christmas carol service will be held at Glenn Memorial Methodist church, located on Emory University campus, at 4 o'clock Sunday afternoon, December 17. Singers of carols will be accompanied by Elbert Adams at the church organ and Lucien Thompson, harpist.

The program follows:

- (a) Angels for the Fields—Old French—Arranged by Clarence Dickinson.
- (b) Legend—Tchakovsky-Lefebvre.
- (c) In Dulci Jubilo—14 Century.
- (d) The Miracle of St. Nicholas.
- (e) The Little Jesus Arranged by Moore.
- (f) Glory to That New Born King—Arranged by W. W. Work.
- (g) Wasn't That a Mighty Night—Arranged by W. W. Work.
- (h) How Beautiful Are the Feet of Him—From Handel's oratorio Messiah—Handel-Dickson.
- (i) Lo, How a Rose E'er Blooming—Prastorinus.
- (j) Adagio—Vivaldi—Novello-Barlow.
- (k) Silent Night—Gruber.

KAUFMAN, ENGINEER, IS SUED FOR DIVORCE

Mrs. Marion Kaufman filed suit in superior court Friday asking divorce from Ira U. Kaufman, Atlanta civil engineer, charging intoxication and cruelty. Judge E. E. Pomeroy issued a temporary injunction restraining Kaufman from calling his wife on the telephone or otherwise interfering with her and set a hearing for December 16. The couple were married September 9, 1934, and separated September 3, 1933, according to the petition. Attorneys Linton S. James and Clifford M. James represent Mrs. Kaufman.

432 New Concerns Get City Licenses

Business revival in Atlanta was indicated strongly Friday as J. Henson Tatum, head of the Atlanta license department, announced that 432 new concerns have been placed on license books within the past six weeks.

Tatum's figures showed that the new businesses have opened since October 26, and also that the city had assessed license fees of \$4,500 for the quarter. That means an increase of \$18,000 for a year.

Practically every line of merchandising is represented in the additions.

TOY DAY BIG SUCCESS; TOY MATINEE ON TODAY

"Toy Day" in the city and county schools Friday met with the greatest response since the inauguration of the annual project three years ago, according to Major Norman S. Marshall, chairman in charge of the drive to obtain toys for needy children sponsored by the Better Films Committee, the women's division on the Chamber of Commerce and the Salvation Army.

The largest number of cast-off toys, for the most part in excellent condition, ever to be given the cause by school children were donated. The toys will be repaired by unemployed workmen at the toy shop at 229 Peachtree street and distributed at Christmas time through the agencies of the Community Chest.

At 9 o'clock this morning Mickey Mouse and Our Gang will help the project with their antics at the Georgia theater where a special children's show will be held. Admission will be buy one or more toys.

Mrs. Crain Rewards.
BALTIMORE, Dec. 8.—(AP)—Mrs. Margaret Bennett Crain, widow of

the late Maryland political leader, Robert Crain, was married today to Colonel Louis Richmond Cheney, former mayor of Hartford, Conn., and a prominent manufacturer of that city.

CONGRESSMAN TO ASK SEED LOANS FOR 1934
WASHINGTON, Dec. 8.—(AP)—Representative Fulmer, democrat, South Carolina, said today he planned to ask congress to extend seed loans to southern farmers in 1934 on the same basis as this year.

The congressman had asked Governor William Meyers, of the farm credit administration, to "make a prompt and favorable recommendation in behalf of this legislation." Fulmer said it would be necessary to act early in the session.

"Under the new system of production credits," Fulmer said, "naturally farmers will have to be in a position to submit splendid financial statements and supply adequate security for loans."

The famous Knit-tex Topcoat

SOLD EXCLUSIVELY in ATLANTA at DAVISON-PAXON'S

\$25 and \$32.50

It takes a good topcoat, of good sturdy woollens, tailored into a medium weight to stand the gaff of our changeable Atlanta winter weather. Knit-tex Topcoats are built to "take it." The fine 100% pure woolen fabrics are carefully picked for durability as well as smartness. Designed on easy, comfortable lines to fill every day-and-night need.

Here's a tip for wives: the Head of the House (bless him!) has been doing without plenty of things these last few years. Maybe your year-round Santa would welcome a Knit-tex Topcoat for Christmas more than anything more gifty or fussy! Drop in our Men's Shop, look over our excellent selection of styles and patterns, then bring in your man to get his okay!

Store Hours—9 A. M. to 6 P. M.

ATLANTA --affiliated with MACY'S, New York

REGULATIONS OUTLINED FOR PEN GIFT PARCELS

Christmas packages may be received by inmates of the Atlanta Federal penitentiary this season, provided rules of the institution as to nature of the presents are followed. Warden A. C. Alderhold announced in the December issue of Good Words, official publication of the prison.

For the period of December 15 to 31 prisoners will be allowed to receive boxes of candy, nuts (except English walnuts), apples, books, cards, calendars and magazines on the approved list. During the same period Brazil nuts, English walnuts, pecans, fruit cakes and pound cakes will be on sale at the commissary. Friends of the prisoners were urged to follow the rules carefully in order to avoid disappointment to the inmates.

Chattahoochee Drops to Low Mark, River Can Be Waded at Some Places

In true Georgia form, remaining dry while the rest of the nation goes wet, the Chattahoochee river has reached such a low stage that it is possible to wade the stream in many places, although the level is not as low as it was during the drought of 1925.

No fear is felt for Atlanta's water supply, in view of the fact that the winter season's rains are about due to begin, and the dam across the river at the pumping station will insure a head of water for the pumps no matter how low the river goes, it was said.

The United States weather bureau reported the stage of the river as 2.5 feet at West Point, and said that the

lowest on record there is .8 foot. Observer George W. Mindling said that the river is now unusually low for a dry fall.

Charles B. Grambling, in charge of the river pumping station, said that there is three feet of water above the city's dam. Ed McGill, Bolton riverman, said that the depth at the Marietta road bridge ranges from an inch and a half to three feet, and that the river was lower earlier in the year.

The average rain over the northern division of Georgia for November was 1.36 inches, a deficiency of 1.66 inches, the weatherman reported.

FLOODING FIRM ROBBED OF TROUSERS, CLOTHES

Burglars Use Truck To Cart Loot Valued at \$2,000 Away.

Detectives Friday were investigating the theft of \$2,000 worth of clothing and other goods from a store on the W. E. Flooding Company, costume and uniform manufacturers at 412 West Peachtree street, Thursday night or Friday morning.

Burglars used a truck to haul away the loot, 30 dozen pair of whipcord trousers, 20 dozen pair of mole-

Florida Magistrate Gets Cow in Lieu of Fine

ST. PETERSBURG, Fla., Dec. 8.—(AP)—Magistrate F. L. Gates, of Clearwater, had fresh milk from his own cow today, and S. L. Yates had his freedom as the result of a court transaction between the judge and defendant.

Yates, fined \$50 for using an improper automobile license plate, had no money and would have gone to jail had the magistrate not agreed to accept the cow in payment of the fine.

skin trousers, sample cases filled with clothing and odd lots of wearing apparel, from a third floor store room. Detectives J. J. Chester and W. M. Holland began the investigation.

Other burglaries reported to police Friday were the J. R. Simmons restaurant, at 214 Capitol avenue, where a quantity of cigars and tobacco was stolen, and the Davis Meat Market, at 21 Davis street. Police said burglars bored a hole in the floor of the meat market to gain entrance. Some provisions were taken.

Harry Mack, a negro, of 114 Davis street, was arrested by police Friday on "suspicion" in connection with the disappearance of several suits recently from the Palmer Clothing Company on Marietta street, according to police reports.

DEPARTMENT HEADS HOSTS AT BANQUET TO MAYOR, COUNCIL

Pledges of co-operation in assisting the mayor and general council in operation of the municipal government for 1934 were made Friday night as department heads entertained the 1933-34 council and the mayor at a dinner at the Ansley hotel.

City Attorney James L. Mayson presided as toastmaster and Mayor James L. Key, the principal speaker, warned that the federal government, now curing for Atlanta's indigent, will turn 6,000 families back on the city and Fulton county about January 1, that some provision must be made for them and that demands for the city's part of labor costs on federal public improvements will react as another drain on municipal revenues.

Key called for co-operation and every department head pledged it. Only department heads and Councilman Aubrey Milam spoke, in addition to the mayor.

"Atlanta's credit is the best of any municipality in the nation," Key told the assemblage. "It must be maintained at all costs. Just co-operate as you have in the past, and we will be able to steer through the morass in which we have been floundering."

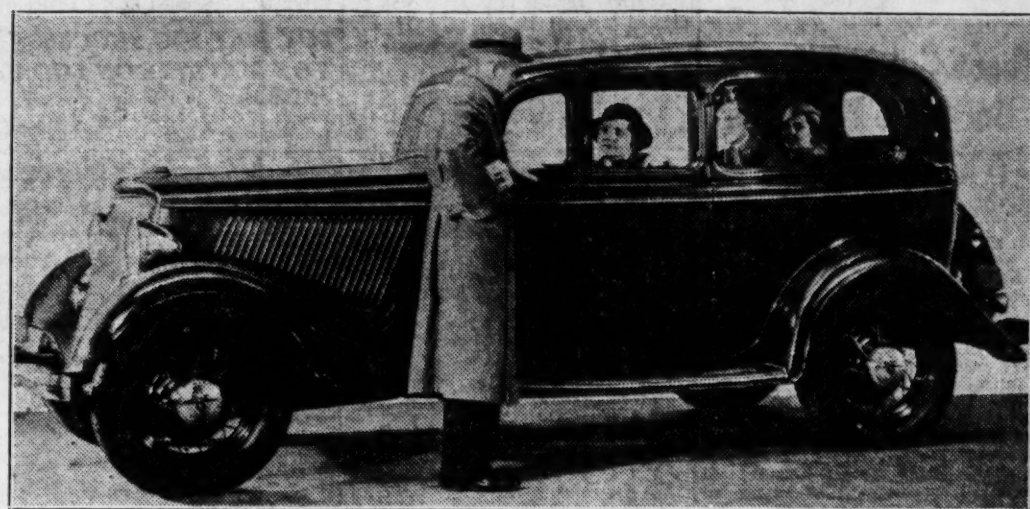

WHOLESALE GROCERS MEET HERE MONDAY

The National-American Wholesale Grocers Association, southeastern section, will meet at the Biltmore hotel Monday at 10 and 2 o'clock. One hundred are expected to attend. Members will discuss the various ramifications of the wholesale grocers' code. M. C. Toulme, secretary of New York, will be in charge of the meeting.

NEW FILM CONTRACT GIVEN ALABAMA GIRL

HOLLYWOOD, Dec. 8.—(AP)—A new contract has been given Gertrude Michael, Talladega, Ala. girl, by the Fox Film Studios, it was announced today. Miss Michael was brought to Hollywood from the New York state and already has a dozen screen roles to her credit. She will appear in a picture starring John Boles and Rosemary Ames.

New 1934 Ford Models Displayed Today

New Ford V-8 for 1934. The de luxe Tudor pictured above is one of 14 available body types. Refinements in the design of the radiator and hood and more luxurious interior appointments feature the new cars. Colored fenders are standard on all de luxe cars. Dual downdraft carburetion and dual intake manifold give greater power and speed to the engine, increasing flexibility and smoothness. Gasoline and oil economy is also increased. A clear-vision ventilating system prevents drafts and provides the desired amount of fresh air in any weather. Ventilation may be controlled by passengers individually. The easy riding qualities of the Ford V-8 have been increased by the use of more flexible springs, improved shock absorbers and softer seat cushions.

Dancers Made Fit by Farm Chores, Reveals Ted Shawn, Famed Artist

By BARBARA BAKER.

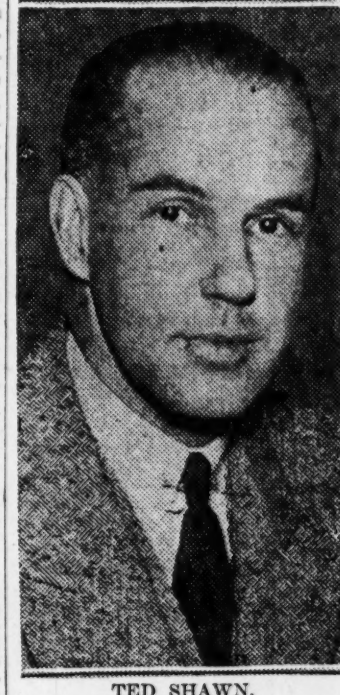

It's a far cry from a Colonial farm in the Berkshire hills of Massachusetts to the lighted stage of an auditorium. And it isn't likely that those who witness the recital of Ted Shawn, world-famed dancer, and his ensemble of eight young men at the Woman's Club at 8:30 o'clock tonight will associate the two until Mr. Shawn, in his talk before the program, tells them about his Bay State studio.

Those perfectly formed bodies, those beautiful muscles, and that endurance so necessary to their art were partially developed through daily farm chores which the students in Mr. Shawn's training do every day. These are followed by a four or five-hour athletic program in the studio. It is the most grueling of physical training, more strenuous than that enforced by football, and "a wonderful weeding out process," Mr. Shawn said in his suite in the Georgian Terrace Friday.

"Some of the boys who had an idea that dancing is easy work soon decided that they didn't want to dance as much as they thought they did," he said.

"In ancient times dancing was almost exclusively a man's art, and in many primitive countries today it is still prohibited to women. Now practically all the arts are creations of both sexes. It seems strange that so many people should generally associate the dance with women, when men are really better fitted for this expression with their greater strength, endurance and precision. It isn't any kind of rivalry. We simply want to re-establish dancing for men on its former basis. Some of my most sincere converts to this idea are football coaches (who came at first to please their wives), and civic leaders. These are the very types of people I so wanted to impress, yet the public would never suspect them of being interested in the dance."

Mr. Shawn, out of costume, might

TED SHAWN.

pass for any business or professional man, not betraying the temperament necessary to his fine and sensitive art. "Hardly anyone recognizes me off-stage," he admitted. "Customary clothes are my best disguise."

The Shawn male ensemble, the only one of its kind in modern times, began its tour October 24 in Vermont. The series of recitals ends on May 3, when the troupe returns to its life and study in the Berkshire hills.

FULTON'S CWA DELAYS TO BE CORRECTED SOON

Lack of transportation facilities, delaying the start on Fulton county's civil works administration projects, probably will be corrected early next week when and if the county is able to obtain trucks from the government for that purpose. A. A. Clarke, superintendent of public works, said Friday.

County Commissioner Walter C. Hendrix, chairman of the county's public works committee, Friday said that the county has invested in sufficient tools and equipment for the work, but that not one of the 1,000 men asked for has been supplied so far.

At local CWA headquarters, on Pryor street, it was said that 1,500 men have been placed at work on city projects, but that the flood of requests for work has delayed a start on the county's projects.

Superintendent Clark said that 1,000 men were supposed to start work last Monday on the county's projects, but that the county was notified that it would be Tuesday or Wednesday before the men "could be available. At the same time, transportation difficulties developed and he has spent most of the week trying to straighten out this angle, Clark said.

BERRY SCHOOLS GIVEN \$2,000 IN COOPER WILL

The Berry schools, of Rome, receive a bequest of \$2,000 under the will of Mrs. Henrietta Tucker Cooper, filed in the ordinary office Friday. Mrs. Cooper left the bulk of her estate to her son, Hunter C. Cooper, to go to the Home for Incurables in the event the son shall die without issue.

Mrs. Cooper was the widow of the late Dr. Hunter Pope Cooper, prominent Atlanta physician.

THREE FOOD CODES NEAR COMPLETION

Agreements Taken Over by NRA Officials From Farm Administration.

WASHINGTON, Dec. 8.—(AP)—Quick disposal of a number of major codes, including some newly taken over from the farm administration, was expected today at NRA as a general clean-up struck the organization.

Three codes covering food manufacturers, wholesalers and retailers, which have been at the farm offices for the last two months, were gone over today by NRA officials, with the result that one of the number ventured the opinion all three codes could be made ready for transmittal to the White House by Monday.

The graphic arts code, covering an extended field of printing and publishing, was in for final conferences, and so was the pact of the newspaper publishers.

On one important code, however, stalemate developed.

Long conferences between employer and labor spokesmen for the construction industry were suspended without agreement and with the prospect that Hugh S. Johnson would have to step in and push through a compromise. Labor leaders pronounced the revised draft put before them by NRA officials "worse than the original" submitted by the industry.

Seven codes were signed by President Roosevelt: Furniture manufacturing, auto storage and parking, pyrotechnic (fireworks) manufacturing, excelsior products, asphalt and mastic tile manufacturing, papermaking-machine builders and machined waste manufacturing.

The disciplinary arm of the NRA also functioned, ordering eight small establishments scattered from Massachusetts to Texas to surrender Blue Eagles for alleged violations.

Johnson, back in mid-afternoon from New York, went immediately to the White House for a conference with Will Hays and other motion picture personages who protested against some of the supervision of their affairs imposed by the government. Indications were they would not win their demands.

The price question will get a lively airing Monday at a hearing into violation of minimum prices established for dry cleaners all over the country. A hundred and sixty have been summoned, including some who intend to argue and try to prove that the minimums, set by the trade under tentative NRA approval, are unjustly high.

If they can make a case, NRA is more likely to order revision of the price structure than not. Otherwise disciplinary measures may be employed.

GEORGIA FLYER SAVED AFTER FATAL CRASH

SHREVEPORT, La., Dec. 8.—(AP)—Death rode the skies today with the 7th pursuit squadron at Barksdale field and chose as the victim Second Lieutenant Ernest E. Holtzen Jr., 25, of Seaford, Mo.

Second Lieutenant Samuel C. Dunlap, 23, air corps reserve, of Gainesville, Ga., pilot one of the two single-seater pursuit planes which figured in a crash 4,000 feet up near the northeastern border of the Barksdale field reservation, floated safely to earth in his parachute. He was scratched about the head and badly shaken up.

The two disabled planes, plunging to earth, crashed 150 yards apart in a plowed field less than 200 yards from the Minden highway, five miles from Shreveport on United States highway 80. Both planes were demolished.

The accident happened during the regular afternoon training schedule of the 7th pursuit squadron. The victim and Lieutenant Dunlap were flying in the second element of the two-element flight.

Lieutenant Holtzen was the lead plane in the second element and Lieutenant Dunlap was flying directly behind him prior to the crash.

At 4,500 feet the flight maneuvered into a 180 degree diving turn. The flight had just settled into the dive after completing the turn when Lieutenant Dunlap's plane, flying on the wing of Lieutenant Holtzen's plane, collided with Lieutenant Holtzen's plane.

The force of the collision caused the wings to come off Lieutenant Holtzen's plane.

Lieutenant Dunlap's plane went into a normal tail spin and the officer bailed out when he was 1,000 feet from the earth.

Lieutenant Dunlap, who lives at 103 Green street, Gainesville, has been a member of the air corps reserve since June of this year, when he was graduated from the corps' advanced flying school at Kelly Field, Texas. Upon his graduation he was assigned to the 457th pursuit squadron, Candler field, but he has been on active duty since July, first at Brooks field, Texas, and now at Barksdale field, Louisiana, where he will remain until June 30, 1934. He attended Virginia Military Institute and University of Alabama before entering the army's aviation school.

Death Rate Increase Is Shown for 1933

NEW YORK, Dec. 8.—(AP)—Statistics of 51 leading life insurance companies show an increase in the death rate among policyholders from 818.8 per 100,000 in 1932 to 830.4 in 1933, the Association of Life Insurance Presidents was told today at its annual meeting.

Dr. William Muhlbach, vice president and medical director of the Union Central Life Insurance Company, of Cincinnati, termed this rise "an absolute increase of 17.8, or a relative increase of 2.1 per cent."

On that basis, he estimated the total deaths in the United States during 1933 will approximate 1,392,000 against 1,374,000 in 1932, an increase of 28,000. The principal cause, he said, was a marked rise in deaths from heart disease.

3 BOATS TO BE BUILT AT CHARLESTON YARD

WASHINGTON, Dec. 8.—(AP)—The Charleston (S. C.) navy yard was commissioned by the navy today to build three harbor patrol boats for the coast guard.

Construction of a fourth boat, a counter-part of the 119-foot cutter to be built at Charleston, was awarded the Portsmouth, N. H., navy yard. The boats will cost an estimated \$235,953 each.

All four are to be completed within 15 months from today. Those at Charleston are to be delivered 30 days apart.

AMAZING BARGAIN

Dodge 4-Door Sedan \$675 f.o.b. factory, Detroit (special equipment extra)

See Your Dodge Dealer Today!
HUNDREDS RUSHING TO BUY NEW LONGER WHEELBASE DODGE "6" WHILE CURRENT MODELS LAST AT TODAY'S LOW PRICE \$595*

21 ADVANCED FEATURES

"Dodge is an amazing value. It has been a bargain all year," say shrewd buyers. And sales figures prove it! Early in the year Dodge swept on to triumph after triumph. In July it passed all competitors—outselling all but the three lowest-priced cars. Then, during the past few months, it widened the gap until today Dodge shows the biggest percentage of sales increase of any American car. Why does Dodge lead? The answer is simple. In feature after feature no other car is as up-to-date as today's new longer-wheelbase Dodge. Yet you get this modern Dodge at low prices... incredibly low!

Tomorrow's Car Today!

In features—in ruggedness—in dollar-for-dollar value—Dodge leads all other cars today. Dodge is up-to-date... modern. And Dodge offers the "Show-Down" Plan to prove it. A new kind of plan that eliminates guesswork. Shows you exactly where Dodge gives you more for your money.

More Modern Features!

For performance, safety, comfort, economy, Dodge has 21 advanced features. Even 12 months from now you won't find all of these in many cars.

Today's new longer wheelbase Dodge gives you many of the latest achieve-

ments of modern engineering science. "Oilite" springs—Floating Power engine mountings—hydraulic brakes—double-drop X-bridge-type frame—silent gears—all of them engineering advancements that most motorists will be asking for next year. And Dodge offers them to you now—TODAY. And bear in mind that most cars won't have next year what Dodge offers you *this year*!

Ask Your Dealer For Details

Think of this, too. Prices have been soaring. It costs more to build the Big New longer wheelbase Dodge Six, but you can still buy the current models while they last for as little as \$595! Prices may not be so favorable for many years to come.

If you are interested in a new Dodge—with 21 great performance and economy features—ask your Dodge dealer about today's attractive prices and easy terms. Your present car will probably make the down payment. See your Dodge dealer right NOW!

ATLANTA, GA., DEC. 9, 1933.

LIQUOR STATUS IN GEORGIA.

The action of the Augusta city council in "legalizing" the sale of liquor in that city and the subsequent announcement by Assistant District Attorney Chastain that the federal forces will continue to wage war on bootleggers and moonshiners complicates the liquor situation in Georgia.

Whether or not the action of Augusta's council will stand remains to be seen, for Judge Franklin has issued a temporary restraining order which will bring the question before his court for judgment.

The old federal laws under which the "revenuers" carried trouble to the "shiners" of past years, who preferred to run the risk of imprisonment to the payment of federal taxes, still exist. It is under these laws that the federal officers will continue to co-operate with local officers in the arrest of bootleggers and makers of illicit whiskey.

If liquor should be placed on sale in Augusta it would be necessary to secure a federal license for each place dispensing it, or the owner would be subject to arrest. The possession of such a license would be bona fide evidence of the intent to break the state law. The action of the Augusta council has had a somewhat unexpected reaction throughout the state, both among those opposed to the present prohibition law and the drys. Instead of being jubilant over the prospect that open sales of liquor may take place in one of the chief cities of the state, the wets are openly apprehensive that the bold defiance of the law will strengthen the hands of the drys, while the drys are fearful that Augusta's example may be followed elsewhere.

Georgia can best decide upon the wisest course to follow through the experience of the other states, which are about evenly divided between those having prohibitory laws and those permitting sales under strict regulation and supervision.

Bootlegging will continue in the dry states, so that the only difference will be that the traffic will be legal in some and illegal in others. As time goes by it is discovered that the legal but strictly regulated sales bring about a decrease in crime and improvement in conditions in the states having no prohibition laws, then the dry states will repeal or modify their present laws.

If, on the other hand, it appears that legalized sale has made conditions worse and increased drinking, then the states having dry laws will redouble their efforts at enforcement.

It is a problem that cannot be solved overnight, because it pertains to conditions which developed slowly over the entire 13-year period of national prohibition.

GOOD USE FOR OLD TOYS.

For the third consecutive year the Better Films Committee, the women's division of the Chamber of Commerce and the Salvation Army are pooling their efforts to bring Christmas cheer into the homes of needy Atlanta children.

They are collecting discarded and broken toys, which are being renovated by unemployed workmen. Materials are being furnished by local stores. On Christmas the rehabilitated toys will be distributed to the needy children on the lists of the Community Chest agencies.

Aiding the project, city and county school children observed "Toy Day" Friday in their classrooms by bringing in their own outmoded or broken toys. These were given to the Salvation Army for repair. Private gifts of playthings are being also.

There is not a home in Atlanta in which there are children in which broken or discarded toys are not to be found. The gifts of last Christmas have lost their attractiveness

THE WORLD'S WINDOW

BY PIERRE VAN PAASSEN

Turkish Anniversary.
Mustapha Kemal's Turkey is celebrating its nationhood. Gone are the turban and the fez—the secluded harem and the sequestered harem. The modern and petulant are the features of modern Turkey. But one tradition of the sultans the Ghazi Mustapha has observed—their political methods. He got rid of the parliamentary opposition by hanging. At their head was Japhet Bey. He was a Jew. He was also a fine man—a brave man who did not fear to joke with death. "Forgive a poor speech, gentlemen, but I am unaccustomed to this unpleasant situation," said Japhet. He got rid of the parliament by hanging. At their head was Japhet Bey. He was a Jew. He was also a fine man—a brave man who did not fear to joke with death. "Forgive a poor speech, gentlemen, but I am unaccustomed to this unpleasant situation," said Japhet.

AS A FEDERAL OFFENSE.

As a result of the recent mob law outrages in widely separated sections of the country, it is probable that a law making lynching a federal offense will be urged at the approaching session of congress.

The enactment of such a law would be in line with the action of congress in enacting a measure making kidnapping a federal offense when that crime became so general in its scope that it assumed the proportion of a national menace. The federal activities made possible by this law have resulted in greatly reducing the kidnapping evil, the apprehension and conviction of most of the criminals responsible for the kidnappings of the past six or eight months, and the prospect that the evil will soon be exterminated.

Now that mob law is no longer a sectional evil, the most conspicuous examples of it recently being in states other than the south, it is not surprising that congress should deal with the evil in the same manner in which it proceeded against the kidnapping menace.

There is no room in the United States for mob law under any conditions. If our civilization is to be protected, the punishment for crime must be left to the courts. There is no midway ground.

A law making lynching a national offense would undoubtedly have a strongly deterrent effect upon those inclined to place the authority of the mob above that of the courts.

MAKING DRIVERS LIABLE.

Following the lead of Massachusetts and other progressive states, the Pennsylvania legislature has passed a drivers' liability law which will become effective January 1, as an amendment to its drivers' license law.

The law provides that a motorist must prove responsibility to satisfy claims up to \$10,000 for personal injuries and \$1,000 for property damage. The law is not an injustice to the careful, law-abiding drivers, because most drivers of this type carry insurance. It is aimed particularly at the reckless drivers who may play havoc on the road without assuming any financial responsibility.

The innocent users of public thoroughfares who are struck down by such drivers must stand the loss of time, pay their own doctors' bills and bear the pain of their injuries without hope of recompense. It is unjust and unfair that a government should, through the licensing of such drivers, lay its law-abiding citizens open to such danger.

The question of a drivers' license law was submitted to the last legislature and will undoubtedly be introduced in the next. When this is done, the measure should include some sort of liability provisions that would offer protection to those struck down by reckless or drunken driving.

Chicago coroner says a few lynchings wouldn't hurt a thing in that place. Provided, of course, the right kind of folks were honor guests at the party.

Permanent waves were first used 700 B. C. But at such a date, women probably didn't get them religiously as they do now.

Hand-shaking political candidates are blamed by health experts for the spreading of disease. They also spread their premises.

Mental cruelty is in compelling a person to pronounce the names of all the Russian higher-ups figuring in the news.

To avoid colds, keep your mouth shut, says a health expert. It is also good advice in avoiding all other troubles.

Mae West will not have reached the pinnacle of fame until they name an entire line of cosmetics after her.

Repeal has started terrapin business on a boom, says a news item. Now there will be a turnover in the turtle business.

Europeans are terrible husbands, says a princess. What! Won't they pay alimony!

The fellow who has plenty of leisure is usually the one who doesn't know what to do with it.

To know what a man is really like, you should try to collect a past due bill from him.

Rum Trade.

The whisky trade of the north of Scotland is awakening at last after a sleep of several years. The north of the northeast are dour, canny people, not given to over-optimism or exaggeration, but even they are smiling now and sometimes even rubbing their hands cautiously. This is the impression one gathers from British newspapers. And they have some reason. For America has gone "wet," and the whisky is coming in.

Last year only five distilleries out of 40 in all Scotland were working. This year the whole 40 will be working. The whisky is coming in. It is not so much the direct gain in employment that matters, for a distillery employs extraordinarily few hands, no more than six or seven. For example, last year the five active distilleries used 30,000 quarters of barley. The farmers were in despair. No one wanted it. At least 220,000 quarters were wanted. Possibly the demand may even rise to 300,000 quarters.

Not Shoe-Cleaners.

In his main pre-election speech, Herr Hitler said that he had as a private individual never forced anyone to do anything. He had never wanted him or considered him inferior. He did not need to, and the German people had just as much strength of character.

"They are not shoe cleaners," he exclaimed, "inferior individuals. No, either equal rights, or the world will see us again at the end of the conference. The power that no German chancellor ever had. I cannot abandon that for which I have struggled for so many years. And the same that has been humiliated and still are being humiliated is the thing that counts in Germany at present." Health Talks

BY DR. WILLIAM BRADY

ON THE GREEN AND OUT OF THE RED.

This country may have its national sports—but has no national game. As spectators and diversions for honest working people, baseball, hockey and football are fine sports. They take the spectator out of doors, where he gets whatever benefits a bundled or coddled or fashionably dressed person can get from the air and sunshine. Aside from these popular sports are no better for the mental and physical health of the onlooker than are the movies or other indoor shows.

Sedentary folk who imagine they get any health benefit from attending baseball or football games deceive themselves. Even when the game is a good one and the spectator becomes excited about it, there is precious little good to health in such vicarious outlet of emotion. The behavior of the excited spectator or fan, his yelling and his wild antics is akin to the hysteria of an ordinary neurotic who feels an instinctive urge to fight or to flee. He is not fighting or running away, but attempts to compromise by just screaming or raising hell for a while. It is a poor substitute.

Golf is not altogether bad for the sedentary individual who wishes to keep his balance. Unfortunately golf is a rich man's game. Takes plenty of time and plenty of jack to play. The game is consistently even if it is only for a short, short summer season in the north. Down south where the golf bug can pursue the pill the round, the game is more expensive, indeed it is beyond the reach of the average good man with a family to support. He can indulge in it only on occasional holidays or verse himself in that pleasant social intercourse: a game in which young or old, men or women, may excel; the game of lawn bowls. It is infinitely more scientific than golf. It affords every opportunity for team work, for the development of special teams whose members acquire specialized skill so that one member can outdo the rest in the game. And all together win in contests with other teams. There is nothing of that in alley bowling, even if we concede that a certain dexterity or skill is desirable in knocking over the pins.

A bowling green costs all the way from nothing up to ten or fifteen thousand dollars to build. The business in one neighborhood obtained from the village the privilege of a suitable bit of reclaimed ground, and built their own bowling green and now enjoy it with their families and visiting bowling clubs. A village four corners where there are enough men to man a horseshoe pitching game may as well have a bowling green and let everybody have a chance to play.

The bowls are not spheroidal but biased, so that one must always figure the curve of one's shot, and that is where the fascination of the game comes in. Bowling on the green would seem to be the ideal national game.

Army Orders

WASHINGTON, Dec. 8.—Army orders: Colonel William Fraser, veterinary corps, to Fort Bragg. Major William R. L. Reinhardt, medical corps, to Fort McDowell. Captain George W. Berry, coast artillery, to Fort Bragg. Colonel Alfred James L. Ford, military intelligence reserve, to South Boston. Major George A. Sanford, infantry, to Denver. Major Casey H. Barnes, field artillery, to Chicago. Secretary of War Dorn today announced that the following Georgiaians had accepted appointments or promotions in the reserve corps: E. A. Appointments: Richard Lewis Bargmann, Fort Oglethorpe, second lieutenant ordnance reserve; Leonard Joseph Hulse, Savannah, first lieutenant, medical reserve; Robert James Prothro, Hampton, second lieutenant infantry reserve; Robert Herbert Williams, Atlanta, second lieutenant, infantry reserve; William Henry Harris, Savannah, first lieutenant, infantry reserve; Ernest Robert Harris, Savannah, first lieutenant, infantry reserve.

News Behind the News

By Paul Mallon.

TRICK WASHINGTON, Dec. 8.—This innocent appearing new national emergency council is not the trivial thing it is supposed to be.

No one paid much attention to it because the White House said it would only be an information bureau of no importance. A hand-out was issued inviting all citizens to send government inquiries to this new council.

That is the way it will work for the present, but skeptics noted that the official executive order issued by the president did not say anything about information. It talked about "co-ordinating" all the federal relief and recovery agencies. Deep down in it was a provision giving the council any authority the president cares to give it. Therein lies a tale.

MOTIVE The president is just about fed up with all the inside scrapping that has been going on among his new dealers. There has been a complete lack of harmony between the liberals and conservatives in the NRA, AAA and all the other alphabetized supers. These two opposing forces are rarely able to agree and he has spent most of his time lately refereeing bouts between them.

His new council will be a super council over all the other supers any minute he chooses to make it that.

He puts his close friend and good servant, Frank Walker, as head of it merely to hold the bag until he is ready to show what is in his sleeve.

TROUBLES

The president kept the true state of his temper to himself in handling the threatened blow-up in the AAA.

By beguiling diplomacy, he managed to save the situation from breaking wide open before the public gaze. The fact which never got out was that No. 2 man Tugwell had his hat on ready to go back to Columbia. His pal, Jerome Frank, was preparing to close up his desk as chief counsel of the AAA. A berth already had been arranged for him in the solicitor's office of the treasury department under Morgenthau.

That was the lineup until the very day that Mr. Roosevelt summoned the Tugwell-Frank opponent, George Peek, to the White House and decided to put the AAA codes under the NRA.

The cheering from the Tugwell-Frank group has not died down yet.

ROOTS

Agriculture Secretary Wallace got all the headlines in the fight. He was an ally and spokesman for the Tugwell-Frank faction but was not involved directly to the extent that they were.

The trouble started last summer. Frank was chief counsel for the AAA, but Peek, the director, had nothing to do with him. For a long time they spoke to each other only when required to.

On legal questions Peek consulted his friend, Fred Lee, not Frank. Lee was privately employed by Peek.

That state of affairs might have gone on indefinitely were it not for the fact that Peek started winning disputed points. He seemed to be putting over his views. The liberals got the idea that the White House favored him, not them.

They threatened to quit and forced action.

IMPOSSIBLE

When Peek was first offered the job as head of the AAA, he told the president it would be unwise for him to accept, because he could not get along with Wallace.

"We do not think along the same lines," Peek explained. The president suggested that Peek go down to see Wallace. He thought they might get together. Peek did. He even went out on a trip with Wallace. He came back and reported they were no nearer an agreement than before, but he thought they could get along.

At that time he did not know Tugwell and Frank.

IMPROVEMENT

Business psychology is so much better hereabouts that certain Wall Streeters are trying confidentially to organize a bull market.

There is nothing particularly outstanding in the immediate picture. No one believes we are going to leap into prosperity. Yet the impression is general that nothing can stop gradual progress toward a good spring rise.

That is, the money policy uncertainty, the NRA hoopla, the agricultural prospects, are all being discounted by the best judges. There is a substantial feeling that things are gradually getting better and will continue to get better regardless of the administration relief and recovery program.

None of the non-partisans shares the published view of Senator Fess that "we are going to hell." They pay little attention to such statements, ascribing them to political motives.

Most of the sound republicans also doubt the wisdom of singing such a chant of death. Some are really fearful that the administration will do something to impede recovery, but they recognize the better psychology now existing.

NOTES

Bootleggers here held "going out of business" bargain sales when repeal was announced. Scotch and cognac were sold by the case at a rate of \$2.60 per bottle, while legal liquor authorities in near-by Maryland were charging \$5 and \$6.

The wets are grumbling about the strong regulations Mr. Roosevelt is putting on the liquor traffic. Congressman O'Connor sarcastically said he preferred the former prohibition to the latter.

National City bank made a strong advertising virtue out of its acceptance of Jesse Jones' preferred stock plan. It ran large ads in Wall Street papers.

Letters From a Bald-Headed Dad to a Flapper Daughter

BY ROBERT QUILLEN

My Dear Louise:
My guess is that the lady meant no offense. Her remark seemed to you a thinly-veiled insult. It sounded that way. But you can't rely on sounds, and I shall tell you a little story to prove it.

When I was a boy in the west, far removed from the negro influence that taught half of the nation to discard "r," I often heard a cheerful folk ballad that went like this:
Pomona, you shall be free;
Pomona, you shall be free;
Pomona, you shall be free;
When de good Lord set you free.

Hearing it so often, year after year, I tried to guess its origin and meaning. Who was Pomona? Was she some black heroine of old slave days?

Whoever she was, the name became popular. It was used as an exclamation. And it was given to jerk-water stations on various railroads and also to villages that became respectable towns.

Those who used it as a place name didn't mean to honor anybody especially; they just like the name.

Well, years passed and I drifted into the land of cotton. And there I had the surprise of my life.

There wasn't any Pomona. The song was one made up by slaves, long years ago, and the freedom referred to was freedom from sin.

The slaves sang it like this:
Pomona, you shall be free;
Pomona, you shall be free;
Pomona, you shall be free;
When de good Lord set you free.

But of course, they pronounced the first two words "Po" moanah and it sounded like Pomona.

Think how a town must feel to discover that it is named Poor Mourner.

The point I am trying to make is that sounds will fool you if you don't examine what is behind them.

If you associate with many people, you won't get through a week without hearing some personal remark that sounds like a "dirty crack." At least it will sound that way to a super-sensitive person who is looking for trouble.

But you must judge people by their acts—not by their careless remarks.

Those who harbor malice will find something better than a cryptic remark to reveal it. They won't leave you in doubt.

Overlook casual remarks that might mean something ugly. Your feelings will be hurt often enough without clawing them with every careless remark of a well-meaning friend.

Love, DAD.

GEORGIA FARM COLONY 'REASONABLY ASSURED'

Public Works Administration Announces Plan for 100-Family Community

WASHINGTON, Dec. 8.—(AP)—Establishment of a hundred-family farm colony in north Georgia is "reasonably assured," the public works administration said today.

No decision has been reached on the location of the community, the division said, but it was indicated the announcement would be forthcoming when the acreage is acquired.

Regents of the University of Georgia system of higher education have filed an application for an appropriation, estimated around \$250,000, to finance a back-to-the-farm movement by colonization in the northern part of that state.

Operations of the homesteading efforts have been clothed with secrecy so that in acquisition of lands for communities, the government will not be forced to pay inflated prices for acreage to owners who would raise prices solely in view of government land purchase.

Secretary Ickes, the public works administrator, said yesterday he expected the announcement of several homesteading projects within a few days.

The plans of the university regents, as presented to the government, call for the establishment of small plots of land on which the necessary houses would be built, tools and animals purchased and everything needed for a successful farmer made ready for the purchaser. There would also be a large amount of acreage set aside for a community farm. The community would be self-sustaining.

Those who wish to take out one of the homesteading projects would not necessarily be experienced in farming but would have other attributes which those in charge believed would make him a success on his land.

The community-owned land would have a supervisor, or manager, whose duties would be to see that the right crops are produced and he would also aid the small land owners, who would also work on the community property, in the planting of their gardens and other crops.

LOWNDES UNSATISFIED ON ROAD REPAIR PLANS

VALDOSTA, Ga., Dec. 8.—Both county commissioners and the city council have adopted a resolution asking the state highway department to change plans regarding repair work on federal highway No. 41 and extend the project north to the Tift county line.

Sometime ago efforts to induce the department to make the repairs resulted in an agreement that the work would be done. This week when engineers reported for work on the job, it became known that only a portion of the bad road was to be included in the project. While the engineers are instructed to make repairs on approximately 12 miles of road, the main eight miles in Cook county in a worse condition than that which is to be repaired.

An engagement has been made for a delegation to meet with Judge Max McRae, commissioner for south Georgia, at the Fitzgerald headquarters next Monday. The delegation will endeavor to induce Judge McRae to issue an order to complete the whole distance of 20 miles in the same project.

6TH DISTRICT DOCTORS AT MILLEDGEVILLE

MILLEDGEVILLE, Ga., Dec. 8.—Sixth district doctors and their wives were entertained in Milledgeville Wednesday, as the Sixth District Medical Association convened in business session at the John T. Brantley home at the Milledgeville State hospital, and afterwards enjoyed lunch at the Hailstone hotel. The authority met at the Allen Invalid home.

The doctors heard Dr. Richard Binion, head of the city hospital here and a fellow in the American College of Surgeons; Dr. Y. H. Yarbrough, of the State hospital staff; Dr. W. W. Crisman, Macon; Dr. Fred Rawlings, of Sandersville; Dr. C. H. Harrison, of Allen Runce; Dr. G. S. Weaver, Dr. Ben Rashinsky and others.

SIGNATURE MACHINE FOR CWA PAYMENTS

SAVANNAH, Ga., Dec. 8.—(AP)—An automatic signature machine will be installed in the office of the civil works administrator here to speed up pay roll payments.

During the past week checks for each of the 6,000 workers were made out in triplicate and each signed by hand, and some of the workers had to stand in line several hours before receiving their pay.

Doctors Give Creosote For Dangerous Coughs

For many years our best doctors have prescribed creosote in some form for coughs, colds and bronchitis, knowing how dangerous it is to let them hang on.

Creosolution with creosote and six other highly important medicinal elements, quickly and effectively stops all coughs and colds that otherwise might lead to serious trouble.

Creosolution is powerful in the treatment of all colds and coughs, yet it is absolutely harmless and is pleasant and easy to take.

Your own druggist guarantees Creosolution by refunding your money if you are not relieved after taking Creosolution as directed. Beware the cough or cold that hangs on. Always keep Creosolution on hand for instant use.

A Valuable Addition To Your Library

In compliance with popular demand, another batch of "OUR PRESIDENTS AT A GLANCE" has been printed. This book, printed on fine paper, 9x12 inches, contains a picture and concise biography of each of the United States presidents, including Franklin D. Roosevelt.

It is valuable as a text book or as a reference work, but even more valuable as a gift, entertaining reading matter. It should be in every home.

Mail 50 cents, or bring 45 cents for your copy to the circulation.

Fund for Excavation Of Ocmulgee Mounds

MACON, Ga., Dec. 8.—(AP)—The Smithsonian Institution in Washington has notified Dr. C. C. Harrold that a civil works administration fund has been approved for excavation and restoration of the Ocmulgee Indian mounds here.

M. W. Stirling, chief of the bureau of ethnology of the institute, advised Dr. Harrold the work may begin within a few days and will continue probably until February 15.

The Macon Junior Chamber of Commerce has announced a plan to raise funds for purchase of the mounds from the present owners and make a gift of them to the city as historical landmarks.

PLAN DISTRICT RALLY FOR YOUNG DEMOCRATS

McRAE, Ga., Dec. 8.—(AP)—A rally of the young democratic clubs of the eighth congressional district is to be held in Lakeland, December 14, it was announced today by Duncan Graham, McRae attorney and district chairman of the organization.

Graham also announced appointment of temporary chairmen for various counties in the district, as follows: Appling, Jasper, Highsmith, of Baskin; Atkinson, W. B. Kirkland, of Pearson; Bacon, C. A. Williams, of Alma; Berrien, Whitlow Powell, of Nashville; Brantley, H. W. Kalls, of Nabors; Camden, Homer Edmonfield, of Kingsland; Charlton, Verne Pickens, of Folkston; Clinch, Downing Musgrove, of Homerville; Coffee, Miss Clyde Wheeler, of Coffee; Jackson, of Adel; Echols, George Howell, of Statesville; Glynn, John Gilbert, of Brunswick; Irwin, Owen Clark, of Ocala; Lanier, John Greer, of Lakeland; Lowndes, DeWitt Roberts, of Valdosta; Telfair, J. K. Whaley, of McIntosh; Wayne, Earl Colvin, of Jesup; and Ware, Walter Thomas, of Waycross.

Those who wish to take out one of the homesteading projects would not necessarily be experienced in farming but would have other attributes which those in charge believed would make him a success on his land.

The community-owned land would have a supervisor, or manager, whose duties would be to see that the right crops are produced and he would also aid the small land owners, who would also work on the community property, in the planting of their gardens and other crops.

Charge Divorced Wife Cremated Ex-Hubby

ROCKFORD, Ill., Dec. 8.—(UP)—The death of Earl Hanson, 42-year-old manufacturer, in a blast of flaming gasoline was described by three witnesses at the trial of Mrs. Hanson, his divorced widow, who is accused of his murder.

Hanson was burned last August as he attempted to start his car. He died in a hospital after a 12-year-old daughter, June, to her mother's country home from a Sunday outing. Shrouded in flames, he stumbled from the car and died on the lawn before the eyes of his wife and daughter.

Prosecutors charge that Mrs. Hanson threw a pan of gasoline over her husband as he sat in the car, then tossed a lighted match into his lap.

WARRANT WITHDRAWN AFTER AUTO FATALITY

DUBLIN, Ga., Dec. 8.—(AP)—Sidney Smith, Laurens county farmer, was released from jail after withdrawal of a warrant placed against him following the death of Miss Rose McElhenny, who was run over by an automobile on a highway near here.

William McElhenny, brother of the dead woman, withdrew the warrant yesterday. Smith surrendered last Saturday night when Miss McElhenny was killed.

HARRIDGE SWORN IN ASSISTANT ATTORNEY

SAVANNAH, Ga., Dec. 8.—(AP)—Julian Harridge has been sworn in as assistant district attorney for the southern district of Georgia. He took the oath of office yesterday following receipt of his commission from Washington.

Harridge, assistant to Dunbar Harrison, assistant for the last several years, also will continue in that capacity.

Harridge served as solicitor-general from 1925 to 1932, and at the death of his father, Walter C. Harridge, succeeded him to the office. He is a graduate of the University of Georgia.

MISSISSIPPI TO GIVE VETS, WIDOWS CHECKS

JACKSON, Miss., Dec. 8.—(AP)—Confederate veterans and their widows will get state Christmas checks this week, the state legislature having done a "Santa Claus" act by approving an additional \$160,000 appropriation in a bill passed by Governor Sennett Connor.

Receipts Rise

TALLAHASSEE, Fla., Dec. 8.—(AP)—Cash receipts of the state conservation department in November were \$21,580.30, as compared to \$11,180.72 in the same month last year, the department said in a statement today.

State Deaths And Funerals

CHARLES F. HOWELL.
COLUMBUS, Ga., Dec. 8.—Charles F. Howell, 56, Central of Georgia Railway engineer, died at his home here. He had been ill three months.

ROBERT WHELEY SMITH.
MACON, Ga., Dec. 8.—Robert Wesley Smith, 34, police sergeant here for 13 years, died last night after an extended illness. He retired from the police department about seven months ago.

AMOS BOTTOMS.
THOMASVILLE, Ga., Dec. 8.—Amos Bottoms, 60, retired railroad engineer, died of a heart attack as he was preparing to go on a hunting trip yesterday. Survivors include a sister, Mrs. Mamie Bottoms, of Macon, Ga.

MRS. SALLY SMITH SEARCY.
THOMASVILLE, Ga., Dec. 8.—Mrs. Sally Smith Searcy, widow of the late John Searcy, died at her home here yesterday. She was 66 years old. She is survived by one daughter and four sons, including Sidney D. Smith, of Atlanta.

JOHN F. MASSEY.
THOMASVILLE, Ga., Dec. 8.—John F. Massey, 53, well known Thomasville salesman, who was injured in an automobile collision here Saturday of last week, died Tuesday afternoon at the Archibald Memorial hospital. Funeral services were held this afternoon from his residence, conducted by his pastor, the Rev. F. F. Callaway, of the First Baptist church. Interment was in the Hill cemetery.

Mr. Massey was born in Brooks county. A number of years ago he was married to Miss Sarah Low Rivers, of Grady county, where they lived for a number of years before going to Thomasville. They were married eight years ago, when they came to Thomasville. Surviving are his wife, one daughter, Mrs. E. S. Barrett, and one son, Robert Massey, of Thomasville. Several brothers and sisters also survive.

Police Step In To Protect Public In War of Rival Tourist Camps

VALDOSTA, Ga., Dec. 8.—A tourist camp war for business has reached the police protection stage in Valdosta.

Two rival camps on Ashley street, located on opposite sides of the highway, have become so vigorous in their battle for business that traffic is being impeded and the public using the highway has asked for protection.

The matter was brought before the council and after learning how men

Georgia News Told in Brief

Port News.
SAVANNAH, Ga., Dec. 8.—(AP)—Arrived: Nicolao Odero, L. Galveston; Salmonpool, Br., Charleston; Volusia, Jacksonville; Upshur, Philadelphia.

Sailed: Camor, Port Ivory, Nosa Queen, Tampa; Southern Sword, Tampa; Volusia, Philadelphia; Upshur, Jacksonville; Pure Wofford and Pure Sherrill, Charleston.

Bowman Election

BOWMAN, Ga., Dec. 8.—In a quiet election the following were elected as officers of the city of Bowman for the year: Mayor, Colonel G. L. Seymour; councilmen, W. L. Herring and W. C. McGarity; clerk and treasurer, J. R. Hendrick; three old councilmen held over for 1934 being Morgan Rice, M. H. Hendrick and E. H. Hendrick. The city of Bowman is free from any debt, has \$5,700 in registered United States bonds, and sufficient cash to operate during 1934.

Milledgeville Election

MILLEDGEVILLE, Ga., Dec. 8.—Mayor J. Adrian Horne was re-elected for a two-year term Wednesday. With only 17 voters casting ballots, L. H. Andrews, S. D. Stenbridge and Stewart Wooten were named aldermen. Mr. Wooten is the only new alderman. He will succeed W. H. Arnall, who declined to be a candidate for re-election.

Pastor Welcomed

MILLEDGEVILLE, Ga., Dec. 8.—Milledgeville churchgoers held union service Sunday night, welcoming Dr. H. S. Smith, the new Methodist pastor. Dr. Smith came to Milledgeville from Decatur. At the Sunday evening service Dr. L. E. Roberts, pastor of the Milledgeville Baptist church, presided, and Rev. A. G. Harris, of the Milledgeville Presbyterian church, made a welcome address.

Farmers Plant Grains

THOMASVILLE, Ga., Dec. 8.—Though less than one inch of rain fell here Wednesday, breaking the sustained drought of three months, it has resulted in many acres of ground being broken about the county for the planting of oats and rye, numbers of farmers taking advantage of the opportunity to get the seed in the ground in the belief that the usual holiday showers will follow, and they will yet be able to get their oat crop off next spring.

Charity Drive Succeeds

MILLEDGEVILLE, Ga., Dec. 8.—Directed by Father T. J. McNamara, of the Sacred Heart Catholic church, Milledgeville and Baldwin county went over the top in their annual drive for charity funds to care for the needy during the coming winter. More than \$2,000 was raised in the annual drive which began on Christmas Day and ended Thanksgiving.

B. Y. P. U. Rally

DEMAREST, Ga., Dec. 8.—Young people churches of Banks and surrounding counties will meet Sunday at 2 o'clock at the Harmony church for a B. Y. P. U. rally, according to announcement this week by H. C. Stamer, of Demarest, president of the Liberty Association. B. Y. P. U. Completion of the plans for the Association B. Y. P. U. will be discussed. Harmony church and their pastor, the Rev. R. L. Buice, of Cornelia, is to have charge of the program.

Forest Fire Smoke Hampers S. C. Traffic

COLUMBIA, S. C., Smoke from forest fires caused such a serious traffic problem in lower South Carolina today that highway authorities closed one road and issued a general warning to motorists.

B. R. Stroup, director of the highway motor vehicle division, said traffic on Route 2 between Four Hole swamp and Rosinville had been detoured by way of St. George.

Five automobile accidents occurred last night near Rosinville because of dense smoke which blanketed the road. No other routes were closed tonight, but it was planned to take any necessary steps to prevent cars from crashing into each other.

Stroup said the situation was "extremely dangerous" due to the forest fires. He advised motorists traveling through the section to "drive slowly, turn on your brightest lights and blow at anything that looks like a forest fire."

MATSUOKA RETIRES FROM JAPANESE PARTY

TOKYO, Dec. 8.—(AP)—Yosuke Matsuoka, Japan's foreign minister, preceded his resignation last March, formally resigned today from membership in the Seiyukai majority party in the national house of representatives.

At the same time, he resigned his seat in the house. He said he wanted to cut all political ties.

Explaining, Matsuoka said he advocated the abolition of all political parties, saying they hampered the cause of national unity which current critical times in Japan demand.

Political writers asserted Matsuoka had ambitions to head a fresh fascist movement appealing especially to patriotic youth elements.

NORWEGIAN SKI JUMPER ARRESTED IN AUSTRIA

INNSBRUCK, Austria, Dec. 8.—(AP)—The Norwegian ski jumper, Birger Haud, who won many events in the international ski contests here in 1932, was placed in jail last night accused of having participated in Nazi sabotage.

The city has been kept awake nightly by the cannonading tactics of Nazi bombers for several weeks.

Farley and Walker Meet in Paris Hotel

PARIS, Dec. 8.—(AP)—Postmaster-General James A. Farley told the voluntarily exiled James J. Walker today about developments, politically and otherwise, in the latter's home city and nation.

Over tea in a hotel, Mr. Farley, who with Mrs. Farley is on a European vacation trip, and Walker, former mayor of New York, chatted for more than two hours. They have known each other for 20 years or more.

Walker converted me to drinking tea," the American official said, explaining that he had missed American coffee.

NEGRO SHOT TO DEATH BY SHERIFF OF BROOKS

Man Accused of Assault
Had Been Secretly Sought
Since Monday.

QUITMAN, Ga., Dec. 8.—In an effort to arrest Lester Dasher, a negro alleged to have criminally assaulted a prominent white woman in the northern part of county, Sheriff Colin E. Clanton, of Brooks county, shot the fugitive through the head today killing him instantly.

The criminal assault occurred last Monday afternoon, but only the male relatives and the sheriff knew of the crime. Sheriff Clanton secured an agreement with the woman's relatives that they would not make any announcement of the crime and would not resort to violence upon his promise to locate the negro and arrest him.

At noon today the sheriff located Dasher, who was armed with a shot gun. When the negro saw the officer he leveled the gun but dodged around a negro house attempting to fire.

Three times the gun was drawn upon the sheriff while the latter was trying to reach the negro. As the negro got into position and raised the weapon for the fourth time, Sheriff Clanton shot, killing the man instantly.

A coroner's jury asked for by Sheriff Clanton, immediately exonerated him, saying he not only shot in self-defense but took too many chances before shooting. The negro's body was brought to an undertaker in Quitman.

NEW BRIDGE PLANNED OVER TALLULAH FALLS

TALLULAH FALLS, Ga., Dec. 8.—(UP)—A new bridge over the gorge at Tallulah Falls, through which a main line of the mountain scenic highway system passes, is being planned.

A committee appointed to back the movement, consisting of Judge Ernest C. Kontz, Lamar Smith and J. T. Davis, Rabun county, has received the approval of Governor Eugene Tamm and the state highway commission.

Judge Kontz, widely known throughout the state as a leader in civic affairs, explained that the only means now available for crossing the gorge is a very narrow road, scarcely wider than an ordinary vehicle. "This is set up on top of the dam of the Georgia Power Company, and used by courtesy. It is really not a part of the highway."

Judge Kontz also pointed out that the gorge divides the national forest and that a good bridge is necessary for fire relief to go from a fire station on the north side to the south side.

He proposed that a new bridge and approaches be dedicated to commemorate Georgia's 200th anniversary.

MILES W. BARGE HOST AT BIRTHDAY DINNER

STONEWALL, Ga., Dec. 8.—Miles W. Barge, prominent citizen of this part of old Campbell county, celebrated his 50th birthday dinner at which were present Mr. and Mrs. George Tucker, Mr. and Mrs. Olin Aldrich, Mr. and Mrs. C. P. McClure and H. B. Adcher.

Mr. Barge entertained his friends at his farmhouse, which is five miles from Stonewall and is one of the most attractive plantations in this part of the country. He was warmly congratulated not only by his guests but by his friends and neighbors.

ONE DEAD, 2 INJURED AS TRUCK-TRAIN CRASH

BRUNSWICK, Ga., Dec. 8.—(AP)—Troy Harp, 23, is dead, and two companions, W. S. (Bud) Newman Jr. and Harry Rowe, are in the City hospital here painfully injured as a result of the crash in which they were riding crashing into an engine of an A. B. & C. train at a crossing within the city limits early tonight.

Hand, an employee of the Georgia Veneer & Package company, was instantly killed when he was thrown from the truck against the engine. The truck was driven by Newman, who, with Rowe, are suffering severe lacerations of the face, feet and hands.

The truck, unladen and reported traveling at a rapid rate of speed, according to police, was practically demolished in the crash.

60 TO BE INITIATED INTO PHI KAPPA PHI

ATHENS, Ga., Dec. 8.—Fifty students, nine graduate students, and one faculty member will be initiated December 14 by Phi Kappa Phi, national honorary scholastic fraternity at the University of Georgia.

They were elected to membership at the annual fall meeting, at which time T. W. Reed, university registrar, was elected president of the chapter, succeeding Dr. Andrew M. Soule, and professor John W. Jenkins was named successor to W. Reed as chairman of the eligibility committee.

EIGHT-YEAR SENTENCE TO CONFESSION ROBBER

COLUMBUS, Ga., Dec. 8.—(AP)—C. M. Miller, 36, pleaded guilty to a robbery charge in Muscogee superior court here yesterday and was sentenced to 8 to 12 years in the state penitentiary. Miller was charged with the holdup of C. P. Willis, bank employee, November 25, and robbing him of approximately \$5,000.

'He Ate Food and Left Me Check,' Says Huey of Breakfast With Banker

NEW ORLEANS, Dec. 8.—(AP)—Senator Huey P. Long said today that Charles S. McCain, chairman of the Chase National bank, "didn't tell the whole story" to a senate committee about their breakfast together at which the senator ordered oysters, sirloin steak, French-fried potatoes and vanilla ice cream.

The senator said he had been invited to breakfast by McCain, and added:

"But you can't get ahead of the Wall Street bankers—he remembered a pressing engagement and left before the waiter could get back with the check, so I paid."

"The facts are," said Long, "that I know these Wall Street bankers and just what to expect of them. Their first custom when they're supposed to be giving you something, is to take back half of what they're giving you before you ever get it."

When Charley offered to buy breakfast—and for me it was dinner because it was near 12 o'clock—I ordered plenty, knowing the chances were that McCain would take most of it. He said he wasn't hungry and only ordered a cup of coffee or something but I knew what to expect. And the facts are he ate one dozen of the oysters, all the French fried potatoes and half of the ice cream. Then he remembered a pressing engagement and left before the waiter could get back with the check, so I paid."

"You rarely get the best of those birds but it so happened that I got back the amount I was out because we sold them some highway bonds at

one price and they fell off a few points in the next day or so."

BANKER'S BREAKFAST DATE GIVEN BEFORE SENATE

WASHINGTON, Dec. 8.—(AP)—Huey P. Long apparently believes in starting the day with a hearty and varied breakfast when he has important business on hand.

Charles S. McCain, chairman of the Chase National bank, told the senate banking committee yesterday of a breakfast he had with the Louisiana senator.

To the amusement of Long's colleagues, the executive of the nation's biggest bank, said the senator ordered: A dozen and a half oysters, a sirloin steak, French-fried potatoes and vanilla ice cream.

McCain said their business pertained to Louisiana highway bonds, which they discussed at a New York hotel.

FEARLESS CURATOR OF EMORY MUSEUM IS BITTEN BY SNAKE

Professor P. W. Fattig, Emory University curator, who on frequent occasions has allowed supposedly poisonous insects and reptiles to bite him in order to prove their venom not deadly was accidentally bitten by a poisonous snake Friday afternoon and was taken to the Emory University hospital for treatment.

Professor Fattig is curator of the university museum. In the interest of science in disproving that many spiders and like insects are not fatally poisonous, he has often forced them to bite an exposed part of his flesh with no untoward results.

But Friday afternoon a student brought him a copperhead snake to examine. The reptile was in a burlap bag and the professor shook it out on the floor. When he grasped it behind the head to pick it up the snake twisted around and bit him on the hand. He was given anti-venom treatment at the hospital and returned to his home at 11 Andrew circle.

The professor told a Constitution reporter he was "feeling all right."

REVOLT THREATS GROWING IN SPAIN

Attempts To Cripple Communication Accompany Open Outbreaks.

MADRID, Dec. 8.—(AP)—A long-expected revolutionary movement was apparently under way in Spain tonight with attempts to cripple international communications and with open outbreaks in Barcelona.

Extremist action expected since last month's general elections which turned the government sharply to the right, were scheduled to begin with the slashing of communication lines.

Services from Madrid to London and Paris were interrupted when the international trunk lines were cut between the capital and Zaragoza. Lines to Barcelona and Martorell, north of Barcelona in the direction of Valls, were cut by telephone communications, were heavily guarded by special squads to prevent isolation of Catalonia.

Lines between Barcelona and Logono were severed following an attempted manifestation of extremists which police broke up. Volleys of gunfire were heard in Barcelona streets when extremists launched an attack on a motor bus garage.

Troops opened fire on the attackers, wounding several. Bombs were thrown into a government-owned garage housing cars and trucks used by civil and assault guards.

The residence of the civil governor of Barcelona at Logono was attacked. Guards answered the fire of assailants from within. The governor hurriedly summoned troops as the affair spread to open firing throughout the town.

Additional bombs were hurled in Barcelona, one damaging the Church of San Francisco, another partly wrecking the residence of the parish priest, and two more causing considerable damage to gas and electric plants.

Extremists flooded the Barcelona region with handbills proclaiming the time had come for a revolution.

Ford Film To Be Seen Today

"These Thirty Years" (scene above), a new talking picture produced by the Ford Motor Company, is to be shown at the following theaters at 2:30 each afternoon on indicated dates: Tenth Street theater, Saturday; Fairfax, East Point, Monday; Fairfax, Little Five Points, Tuesday; DeKalb, Decatur, Wednesday; West End, Thursday, and again at the Tenth Street theater Friday. Complimentary tickets are being distributed by Ernest G. Beaudry, 169 Marietta street, N. W.; Central Motors, at Spring and Harris; C. E. Freeman, Inc., 258 Ivy street, and Robert Ingram, Inc., 243 West Ponce de Leon avenue, Decatur. The local showings of this picture are being held under the auspices of these Ford dealers.

In Georgia's Fields and Streams

By H. A. CARTER

WOODS FIRES.

The most deplorable practice of farmers and wood-lot owners that ever came to my attention is that of burning over their land. There have been reasons without end offered in defense of this practice, but I have always been able to pin down my opponent to the fact that he is burning over his land because he does it because he thinks it is the right thing to do. Take

the tick-control program, for example. The United States department of agriculture is my authority that dipping is the only method of controlling ticks, and that burning of the fields is absolutely worthless for this purpose.

Not only is the practice of no benefit, but it is positively detrimental to all the birds that can be grown for sport. It is the effect of fires on natural balance. Now I want to say something about the effect on game and other resources.

Burning in the spring naturally endangers the ground-nesting birds such as quail. Even if the adults escape, the eggs and nestlings are roasted. It may be pointed out here that the land under cultivation is not burned off, but that only those areas which grow natural cover for game birds suffer from this practice. Granted that the eggs all hatch, and that the nestlings come to maturity. Will they stay with you if your land doesn't continue to offer cover?

It seems to me that farmers with such property are making a mistake by not encouraging the birds with all the cover that can be grown for them. Sportsmen are willing to pay a small daily fee for the privilege of hunting on property that will afford some real hunting. This fee can be applied to providing still better conditions for the propagation of birds, and the farmer eventually will be able to realize a profit on game that otherwise would be a myth.

Think about this thing. You in the cities are adversely affected by the practice of burning off woodlands. The farmer, of course, has the right to burn his land over if he wishes; that is his affair, and if he wants to take a loss, let him go ahead.

But for the sportsman, so-called, who tosses a cigarette into dry leaves, or leaves a campfire glowing, I have only the most abundant contempt. Fine and imprisonment should attend him all his days and he should be made to replace every tree and bird that suffers.

Blue shirts worn by General Eoin O'Duffy, which were outlawed as an armed menace by the government on August 22, and which merged with the Cosgrave party and the center party to form the united Ireland party to fight President Eamon De Valera.

Blue Shirts Banned As Illegal in Ireland

DUBLIN, Irish Free State, Dec. 8.—(AP)—The Free State executive council today proclaimed the Young Ireland Association, a junior branch of the united Ireland party, an illegal organization.

Almost immediately, however, the party and the association issued a joint statement that members of the latter body would continue to work for the fulfillment of their aims.

"Any prohibition of authority or attempts to intimidate them or dictate to them what garments the members shall or shall not wear," it was not allowed, the manifesto asserted, adding that "there is nothing illegal about a blue shirt."

Blue shirts were worn by an organization headed by General Eoin O'Duffy, which were outlawed as an armed menace by the government on August 22, and which merged with the Cosgrave party and the center party to form the united Ireland party to fight President Eamon De Valera.

French Peasant Girl Canonized at Vatican

VATICAN CITY, Dec. 8.—(AP)—The 14-year-old French peasant girl whose visions of the virgin were responsible for the world-famous grotto of Lourdes, was made a saint today by Pope Pius XI.

The solemn canonization ceremony was in St. Peter's in the presence of a score of cardinals and an estimated half-million thousand pilgrims. She became Saint Bernadette Soubirous.

A tremendous cheer burst forth from the throng when the pope decreed in Latin that Bernadette Soubirous "be inscribed in the catalogue of the saints and her memory be celebrated in the universal church every year with pious devotion."

Dual Celebration Opens Today For Harris, Uncle Remus Group

Br'er Rabbit's two most important friends, Joel Chandler Harris, the man who wrote about him, and Mrs. A. M. C. Wilson, who founded the Uncle Remus Memorial Association, will be honored today at the first of a series of affairs celebrating the birthday anniversary of the famous Georgia author and the silver anniversary of the memorial association.

Dr. M. C. Brittain, president of Georgia Tech, will be the principal speaker at a luncheon at 1 o'clock today at the Georgian Terrace at which Mrs. Wilson will be the honor guest. Colonel Frederic J. Paxon will preside.

Twenty-five years ago Mrs. Wilson organized the memorial association to perpetuate the memory of Joel Chandler Harris and Uncle Remus, whom he created along with Br'er Rabbit in his world-famous stories of the south. The Harris home, "The Wren's Nest," was purchased by the association and is now a museum of Harris' work which has been visited by more than 40,000 persons from every country in the world.

Today an original musical composition by Mrs. Dorothy Remington Webster, called "Dat Sun's A Shining," will be broadcast by the station over WSB at 6:15 o'clock this evening. It will be the theme song of the

MANUFACTURERS ASK STABILIZATION

Association Also Adopts Mild Resolution on NRA Hours and Pay.

NEW YORK, Dec. 8.—(AP)—The National Association of Manufacturers, which claims to represent 56,000 producers, resolved unanimously tonight to ask definite assurance from President Roosevelt that he will stabilize the dollar on a gold basis as soon as the final session of the two-day convention, was passed in the language offered by the resolutions committee only after a spirited debate in which some members urged a more strongly worded document against the people of the United States.

The resolution, one of nine adopted at the final session of the two-day convention, was passed in the language offered by the resolutions committee only after a spirited debate in which some members urged a more strongly worded document against the people of the United States.

With respect to the NRA, the association members pledged themselves to "make every rational effort to co-operate in and test fairly experimental legislation under which industry has been placed by the congress."

The resolution affirmed the members' duty to offer constructive criticism as well as the policy or plans of operation appear, or as administrative improvements may be suggested.

Adoption of the resolutions followed the presentation of conflicting viewpoints on the national administration's monetary policy by Frank A. Vanderlip, financier, and Dr. Ray B. Westfield, Yale economics professor.

Several members expressed the private opinion that the NRA resolution was tempered as a result of a speech before the group last night by General Hugh S. Johnson, NRA administrator, who made a vigorous defense of the president's policies.

The resolution urged "that work periods in industry be not further shortened or wage rates further increased until there is full assurance that the resulting increase in costs and prices will not further curtail consumption volume."

"Serious consideration" of a federal gross sales tax and the widening of the income tax base to include a greater number of individual taxpayers by a lowering of exemptions was urged. The association also went on record as favoring a liquor tax to adequately increase national revenue without encouraging illicit competition.

In their addresses, Dr. Westfield, formerly chief of the treasury department's statistical section, favored stabilization of the dollar at its gold value, and Vanderlip said to "return to the gold standard as we always have known it would be a distinctly unfortunate course to follow."

FATHER IS ARRESTED FOR DEATH OF INFANT

DENVER, Dec. 8.—(AP)—Donald K. Smith, 31, was brought hurriedly to the Denver county jail today from near-by Littleton while groups of his fellow citizens heatedly discussed the death of his infant son.

Sheriff E. E. Monzingo said Smith signed a confession that he had killed the child to death.

A. T. Monson, deputy district attorney, said he would file a murder charge as soon as Judge Samuel Johnson opens court at Littleton tomorrow.

Monson and Sheriff Monzingo said Smith signed the confession this morning after his wife, Mrs. Mabel Smith, 27, told authorities that a previous story that she had killed the child was not true.

The couple first reported the baby died December 4 after it had been knocked down by a door Smith flung open as he entered the family home carrying an arm load of wood.

The statement, Monson said, was signed by Smith, who stated the child "died as a result of my treatment of him."

"The story I told after the baby's death was that the officers quoted Smith as saying, 'I persuaded my wife to tell the story to remove suspicion from me.'"

She told them, Monson and Monzingo said, that Smith became enraged when their child asked him for candy and because the baby could not pronounce the word "breakfast" and had replied "supper" when the father asked him what meal he had eaten last night.

The authorities said Mrs. Smith told them her husband took the child into another room, beat and kicked him and then told her to get a doctor when he saw blood coming from the mouth.

Doctors Seek Cause Of Death of Girl, 14

Rachael Maynard, the 14-year-old daughter of Mr. and Mrs. Louis Berly Maynard, of 278 Boulevard, N. E., died at Grady hospital early Saturday morning a few minutes after being admitted for observation. Hospital authorities said a post-mortem examination would be made today to determine the cause of death.

The child was taken to the hospital by her mother at about 9 o'clock, soon after she was taken ill, and was assigned to a ward for observation. Death occurred at about midnight.

Play, "Uncle Remus and His Creations," which soon will be staged in Atlanta by Joseph R. Seligson, Lucien Harris Jr. will tell an Uncle Remus story and Lambdin Kay will speak.

Professor L. D. Scott, president of Washington Seminary, will be the main speaker at a luncheon Monday at the Atlanta Woman's Club, at which a special program will be presented.

Mrs. Wilson will celebrate her seventy-eighth birthday anniversary on Thursday, December 14, and a special luncheon in her honor has been planned by the Woman's Club to be held in conjunction with the celebration of her 25 years of service with the memorial association.

Mrs. Wilson is widely known throughout the south and in addition to her work with the Uncle Remus group, organized the first Young Women's Christian Association in the south nearly 40 years ago. She was chairman of the Y. W. C. A. in five southern states for many years, and it was through her work that the association was organized in nearly every city and in more than 40 colleges in Alabama, Florida, Tennessee, South Carolina and Georgia. She resides at 209 Fourteenth street, N. E.

SEARCH FOR CONVICTS IS PUSHED BY POLICE

Allene Avenue "Clue" Fails
To Produce Three Men.
Cotton Mill Area Combed

City police Friday encountered the only clue to the whereabouts of three convicts who escaped Thursday night from North camp of the Fulton chain gang system, and made a fruitless search of the Allene avenue neighborhood after Mrs. W. D. Nash, of 1319 Allene, wife of a patrolman, reported to headquarters that a neighbor had talked with two men answering descriptions of the wanted men.

Mrs. Nash told Captain A. J. Holcomb that the neighbor, Mrs. Osburn, of 1313 Allene, told her that the two men had just called at her home and asked for food. Radio officers reported that they were unable to find the men.

Captain A. A. Clarke, county warden, said that no definite line on the whereabouts or hideout of the three convicts had been obtained by county authorities, with the exception of information that they might be hiding in the vicinity of a cotton mill here.

M. J. George, one of the two guards who were overpowered, kidnapped and beaten Thursday night when the three men, Floyd Collins, Edward Peacock and Bobby Ray, made their break. Friday was under medical attention for a rib fracture. George and Guard R. C. Guest were taken prisoner by the convicts when one of the escaping men obtained possession of an automobile crank. The guards were taken in a stolen machine to DeKalb and Moreland avenues, where they were badly beaten before the three convicts bound and gagged them and deserted the automobile.

Deputy Warden Claude Mills Friday said that others housed in barracks might have escaped except for the action of four prisoners, George Harsh, R. K. Young, serving four to six years for burglary, and Tom Hinkles and Harry Coffield, misdemeanor prisoners, in uniting members of the day guard force of the escape and blocking the door until other guards took charge.

ATLANTA RELATIVES OF GENERAL BUTLER TO GREET HIM HERE

Atlanta relatives of Major General Snedley D. Butler, retired officer of the marine corps, will be on the general reception committee when General Butler and James E. Van Zandt, commander-in-chief of the Veterans of Foreign Wars, arrive here Sunday to address a meeting at 2:30 o'clock Sunday afternoon at the city auditorium. The visitors will arrive at 11:30 o'clock Sunday morning at the Terminal station.

Relatives of General Butler invited to serve on the reception committee and to occupy seats on the platform at the auditorium are: Mrs. Harry M. Atkinson, an aunt; Edward O. Peters, an uncle, and Mrs. John P. MacDonogh, Mrs. Jackson P. Dick, Ralph Peters Black and Wimbly Peters, of Atlanta, and Mrs. Lamar Rucker, of Athens, first cousins. Among Atlantans asked to serve on the committee are: Clark Howell, of The Constitution; Herbert Porter, of the Georgian, and Major John S. Cohen, of the Journal.

TREE IS PLANTED IN HONOR OF HERTY, FAMOUS CHEMIST

Children of Atlanta's elementary schools paid tribute Friday to Dr. Charles Herty, noted Georgian, when a slash pine tree was planted in his honor in the Georgia bicentennial forest in the Peachtree Memorial park. Representatives of the various schools spoke on the program and Willis A. Sutton, school superintendent, presided.

The slash pine, of the variety from which Dr. Herty discovered paper could be made, was planted by the children in the midst of the memorial forest and will be known as the Herty tree. Songs and poems commemorating Dr. Herty and his paper-making process featured the exercises.

CHRISTMAS SEAL SALE MAKING NEW RECORDS

Christmas Seal sales are far ahead of sales for the same period of last year, according to James P. Faulkner, executive secretary of the Georgia Tuberculosis Association, and Miss Mary Dickinson, executive secretary of the Atlanta Tuberculosis Association. The increase has been registered in both the city and the country. Miss Dickinson said that the sales for the first seven days of 1932 were \$2,206.33 and for this year \$2,628.79, an increase of \$332.46. Miss Dickinson's figures include both Fulton and DeKalb counties.

Mr. Faulkner said that the demand by committees for seals is about 25 per cent ahead of last year. The increase is attributed to the new program of tuberculosis control, which will be launched in the state in 1934, a systematic plan to eliminate tuberculosis as completely as yellow fever and smallpox.

'QUARRELS ABOUT GOD' IS DR. JONES' SUBJECT

Pointing out that the fiercest controversies of history have been religious, Dr. M. Ashby Jones has announced that his topic for Sunday morning at Central Congregational church will be "Our Quarrels About God." Dr. Jones has been occupying this pulpit as guest preacher for several months and large congregations have been attending his Sunday morning sermons.

"Questions concerning the nature and name of God, where and how to worship Him," Dr. Jones stated, "have divided races and nations, church and families. We have inherited many of these quarrels and invented some of our own. Thus has religion often been a divisive instead of a unifying force in the world."

Dr. Jones will ask in his sermon Sunday morning just what God did Jesus reveal, because he believes only in Him shall we find a unity of spirit and a united strength.

HARALSON COUNTYSUED BY ATLANTA ARCHITECT

C. H. Glass, Atlanta architect and construction engineer, filed suit in superior court Friday seeking to restrain the board of directors of Haralson county from delivering to W. R. Powell a warrant for architect's fee in connection with the proposed construction of the new Haralson county jail.

Glass charges that Powell and other defendants defrauded him by representing that plans for the jail had been dropped after he had prepared the drawings and specifications, and that his reputation will be damaged and he will be otherwise injured unless he receives equitable relief, as Powell has charged the plans prepared by him and is seeking to perpetrate a fraud on Haralson county. The suit was filed by Attorney J. M. Seal.

Junking of Old Tallulah Falls Road Brings Sadness to North Georgians

North Georgia history was recalled by the news Friday from Washington that the interstate commerce commission has granted permission for the abandonment of the historic Tallulah Falls railroad, from Cornelia, Ga., to Franklin, N. C. It was on the old T. F. R. that Atlantans made the romantic journey

up to the falls, once beautiful but now hidden by the march of industrial progress. Many of the older generation recall the T. F. R. with fond memories of week-end picnics spent in the Tallulah section, when the gorge was a sight that brought visitors hundreds and thousands of miles. The builder of the railroad was the

Northeastern Railway of Georgia, in 1882. This company was acquired by the Blue Ridge and Atlantic railroad, formed in 1887 to take over the property. The road originally ran 20 miles from Cornelia, where it forms a junction with the Southern railway, to Tallulah Falls. In 1898, after a reorganization as the Tallulah Falls railroad, the tracks were extended to Franklin, N. C.

History of the railroad has involved several receiverships, beginning in 1892, when receivers took charge until 1897. The road went into receivership again in 1908 for a year, and after that was operated until 1923 without receivers, J. F. Gray being appointed receiver in 1923 and remaining in that office until now.

The railroad is 57 miles long. It has five engines and 52 cars, with a round trip from Cornelia to Franklin each day. The railroad stock was bought by the Southern in July, 1905, and still remains in the possession of that road. The business hauled over the Tallulah Falls has consisted largely of forest products and minerals, the road serving 1,420 square miles

of territory, of which 75 per cent is in woodlands. The population of the area is 38,000, exclusive of Cornelia's 1,600.

Proposal to abandon the road was fought before the ICC of the Georgia public service commission. At the Georgia commission's offices it was said that the railroad made money during the last several months, a good sign of possible better business under the new deal and NRA. The abandonment will call for taking up the tracks unless some person or firm

buys the road and opens it again for operation, it was said.

Construction of a good paved highway through the railroad's area several years ago means that the patrons of the railroad will be supplied with bus and motor truck service, although logging operations probably will be difficult to handle with trucks, it was said.

The ICC, according to Washington dispatches, found that the single track road ran through such a sparsely settled section that neither the present

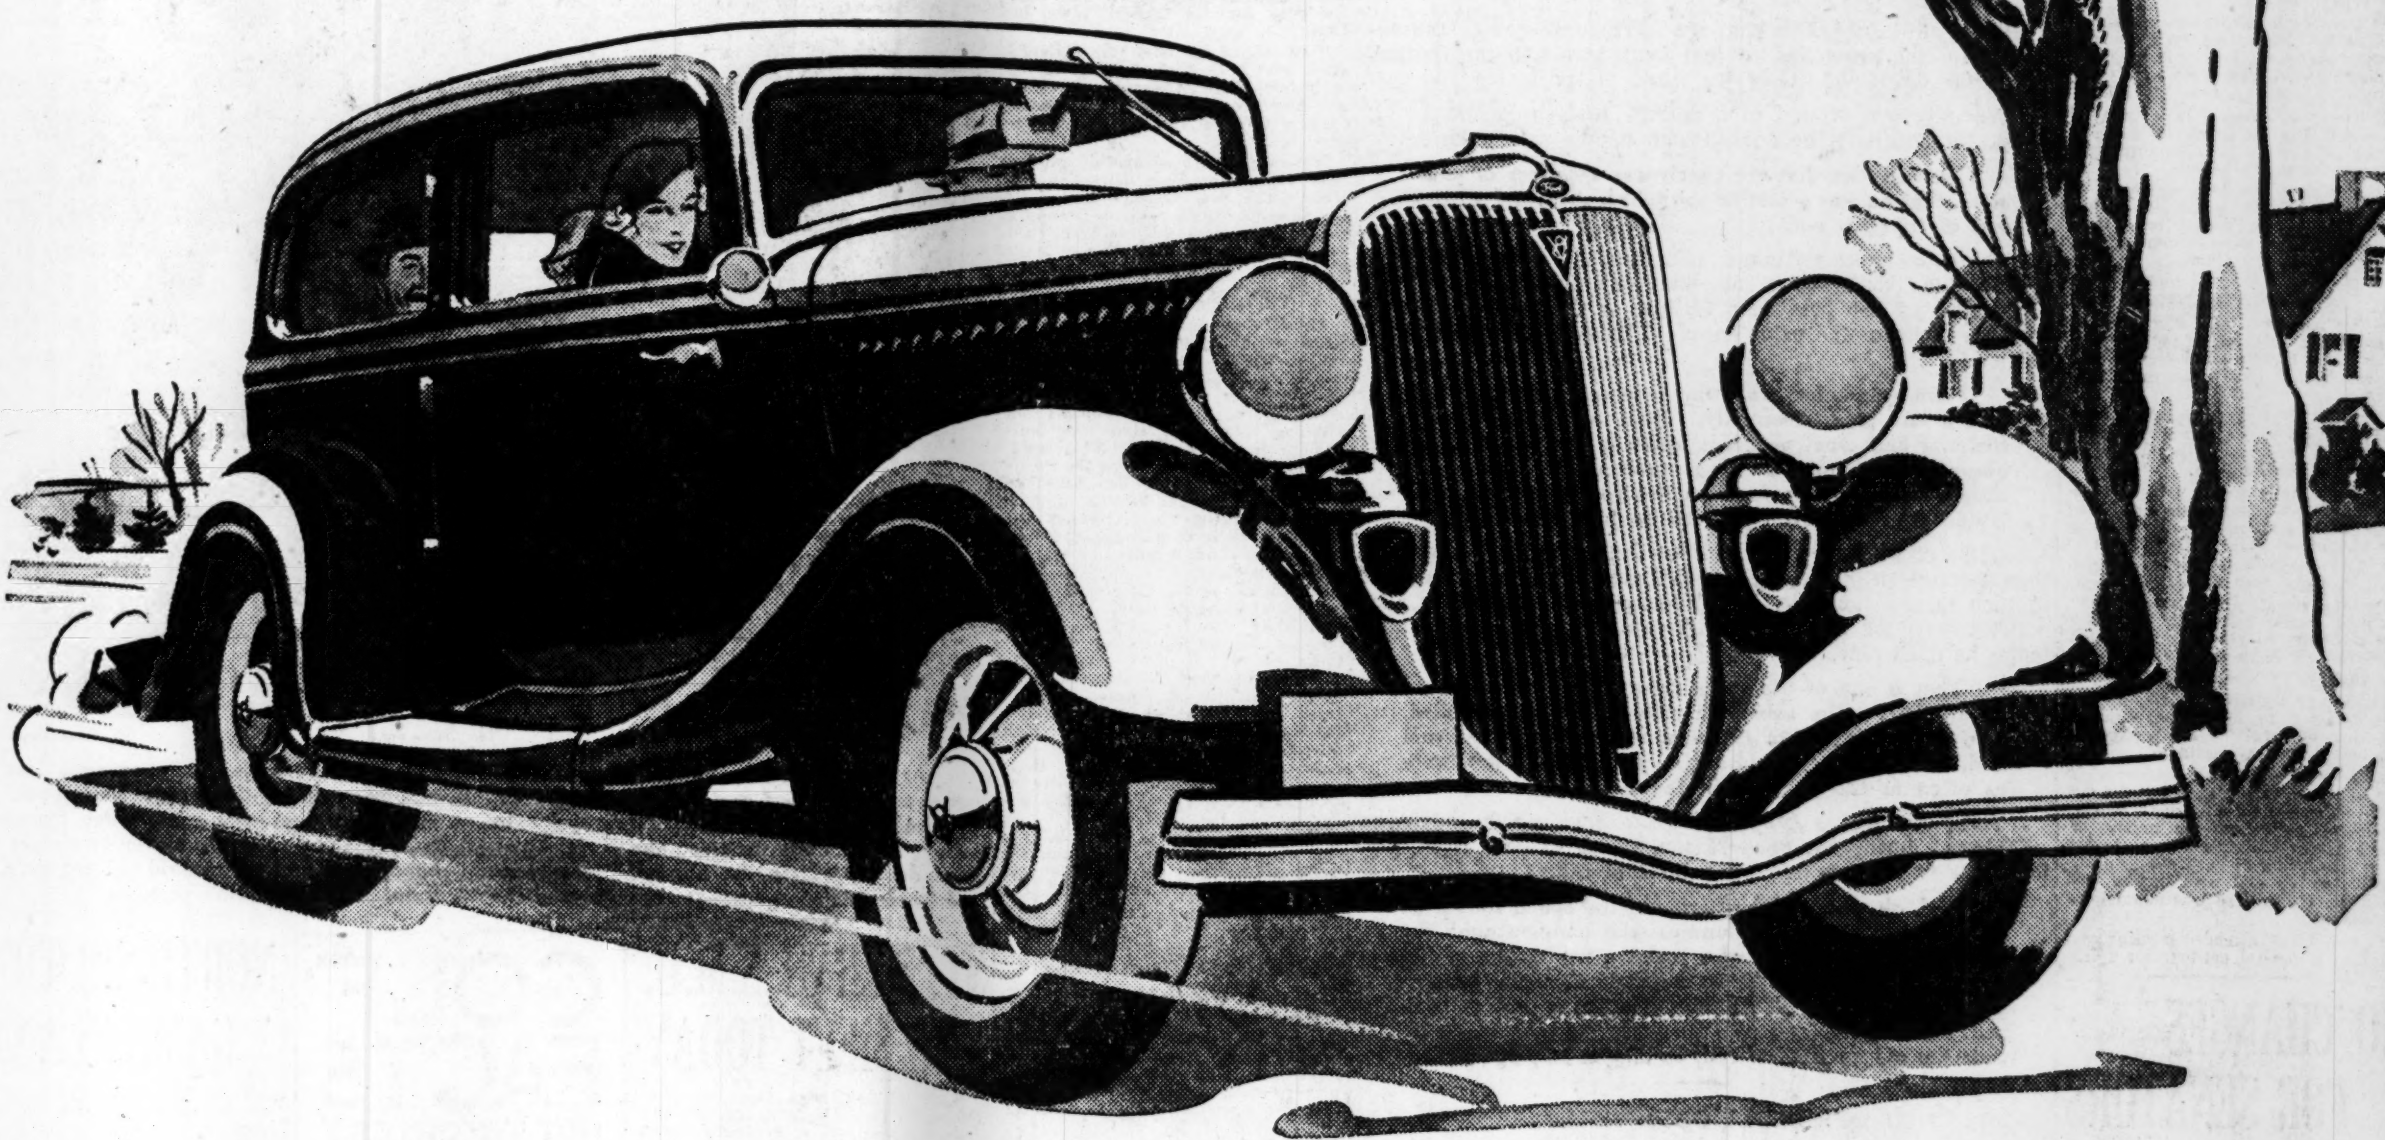

not prospective volume of traffic warranted continuance of operation.

MAYO'S WILL ACCEPT CITY SCRIP IN TRADE

Mayo's Clothing, 45 Peachtree street, announced Friday that the store would accept city scrip from employees trading at the store.

Seventy-five per cent can be paid in scrip and the rest in cash, the management said.

Announcing

NEW FORD V-8 for 1934

THE UNIVERSAL CAR

The New Ford V-8 for 1934 is now on display at the showrooms of Ford dealers. Surpassing even the great Ford of 1933 in economy, beauty and comfort, it is truly the car of this modern age—the culmination of thirty years Ford progress. It combines the proved performance of the V-8 cylinder engine with two important new features—Dual Carburetion and perfected Clear-vision Ventilation. See this car today and drive it at the first opportunity.

OUTSTANDING IMPROVEMENTS IN THE NEW FORD V-8

BETTER PERFORMANCE. Greater power, new speed, quicker acceleration, smoother performance, more miles per gallon especially at higher speeds, and quicker starting in cold weather—all these result from the new dual carburetor and dual intake manifold. New waterline thermostats enable the engine to warm up more quickly and to maintain an efficient operating temperature. Added engine refinements reduce oil consumption, further improve operating economy and reduce maintenance costs.

NEW VENTILATION SYSTEM permits clear vision, prevents drafts and provides desired amount of fresh air in any weather. Individual control for front and rear side windows. When ventilation is desired the window glass is raised to the top. Then the handle is given an additional half-turn. This slides the glass back horizontally to form a narrow slot, as illustrated. Through this slot air is drawn out by the forward motion of the car. This simple ventilation system maintains draft-free circulation, insures passenger comfort, prevents fogging windshield in cold or stormy weather. Both windshield and cowl ventilator can be opened to supply additional air needed for comfortable warm-weather driving.

DISTINCTIVE NEW APPEARANCE enhanced by the newly designed chromium-plated radiator shell and grille, new hood louvers, new hub caps. Interiors are attractive, with new tufted upholstery, new mouldings, new cove-type headlining, new instrument panel, new arm rests, new hardware. Swivel-type sun visors in De Luxe bodies prevent glare from front or side.

FENDERS IN COLOR. On De Luxe cars fenders are in color to harmonize with body colors—wheel colors

optional. New enamel finish on all bodies and fenders has greater wearing quality and more enduring luster.

GREATER RIDING COMFORT results from increased spring flexibility. The spring leaves are newly designed for quieter and easier action. Shock absorbers are improved. Seat cushions are deeper, with new, softer springs. New type, individual bucket seats provide increased comfort for front-seat passengers in the Tudor Sedan. Adding to comfort is the new driving ease of the 15-to-1 steering gear ratio.

PRICES REMAIN LOW—Tudor Sedan, \$535. Coupe, \$515. Fordor Sedan, \$585. De Luxe Tudor, \$575. De Luxe Fordor, \$625. De Luxe Coupe (5 windows), \$555. De Luxe Coupe (3 windows), \$555. De Luxe Roadster, \$525. De Luxe Phaeton, \$550. Cabriolet, \$590. Victoria, \$610. (All prices f. o. b. Detroit.)

Call at any Ford Dealer for free tickets now for moving picture, "These Thirty Years," to be shown at: Tenth Street Theater, Saturday, Dec. 9, at 2:30 P. M., and week of Dec. 11 at the following theaters:

Fairfax (East Point), Monday; Palace (Little Five Points), Tuesday; DeKalb (Decatur), Wednesday; West End, Thursday; Tenth Street, Friday. Picture begins at 2:30 P. M.

FARM PRICE BOOSTING IS SCORED BY EDITOR

Roy Roberts Raps Administration Policy on Agriculture.

NEW YORK, Dec. 8.—(AP)—The government's agrarian policy of concentrating on raising domestic farm prices "at once irrespective of world prices" was sharply criticized today by Roy Roberts, managing editor of the Kansas City (Mo.) Star.

Addressing the annual convention of the Association of Life Insurance Presidents, Roberts declared that the immediate agricultural policy of the administration "has one or two extremely disturbing factors."

"Primarily, the entire administration effort has concentrated on getting up domestic farm prices at once irrespective of world prices," Roberts said. "The same major mistake was made by the Hoover administration. Any economy of agriculture that contemplates the United States supplanting the world market is appalling. It would mean, said Roberts, the

removal from production of 45,000,000 acres of land and a damming up of surpluses.

"To take 45,000,000 or upward acres out of production as the basis policy apparently now contemplated means increasing the tax burden of those acres still cultivated," he asserted. "It means increasing unemployment, decreased trade for our railroads, destruction of trade centers, and a general lessening of the velocity of our business. Some substantial shrinkage there must be, yet to get a balanced agriculture, but not on the scale contemplated."

CARNEGIE FOUNDATION REPORTS ON GRANTS

NEW YORK, Dec. 8.—(AP)—Dr. Frederick P. Keppel, president of the Carnegie Foundation of New York, reported Thursday that the corporation distributed a total of \$4,855,747.04 during the year ending September 30 to 216 projects throughout the world.

In his report Dr. Keppel estimated that 50 per cent of all the grants voted during the year for new projects in the United States were made directly or indirectly as the result of the economic emergency.

Library interests received the largest total of grants with \$1,186,300 and adult education was given \$227,500.

Reviewing the Shows

Fox and Grand Present Features Of Far Different Type of Appeal

By RALPH T. JONES.

Two excellent examples of widely divergent types of screen entertainment began the new week yesterday at the Fox and Loew's Grand theaters. Though both are open to minor criticism, they yet offer well while entertainment.

At Loew's the Grand picture is "Should Ladies Behave?" with Alice Brady and Lionel Barrymore carrying the two chief roles, while the Fox presentation is "Sitting Pretty," one of those comedies with romance, music and pretty girls galore. Ginger Rogers and Jack Oakie are the best known names in the cast.

For those who like their screen entertainment light and frothy with tuneful songs and galaxies of shapely femininity, somewhat scantily clad, "Sitting Pretty" is recommended. Those who like their romance after marriage, with three or more angles to the domestic problems, albeit treated in sophisticated, nonchalant style, should go to the Grand and see "Should Ladies Behave?"

This Metro-Goldwyn-Mayer production really is the screen version of the stage play, "The Vineyard." Many of you doubtless saw it during its eight-month run on Broadway and others when it was produced in stock at the Eltinger.

Alice Brady fits the role of the woman who delivers the lover of her youth has returned to claim her, 20 years after she married the old man with the money. Although she cannot possibly remember either the name or profession of the one romantic interlude in her younger life.

Lionel Barrymore is the old husband who realizes fully the difficulties that arise when husband is 20 years older than wife and who manages, nevertheless, to salvage something worth clinging to out of life. Conway Tearle is ideally cast as the foolish point of all the romantic dreams of the female contingent in the cast while Mary Carlisle is beautiful and irritating enough to be a realistic nineteen.

The picture is well made and clever. Minor criticism lies in its choice as a picture in the first place. It really depends too much on lines and character development for the screen. In

short, it is properly a stage play rather than a screen story.

"Sitting Pretty" on the other hand, is the kind of thing that could never be half so well done on stage as on screen. Its only weakness is in a general similarity to too many other pictures of recent production. It is the familiar story about entertainers, of one type or another, who struggle hard for success and achieve it after experiences that are really funny, whether they are tragic or not in the living.

And when the success does come at the end it is demonstrated in a couple of gorgeous stage production numbers, with shapely ladies in battalions and new effects in dazzling splendor.

This time the road to success is the song-writing byway. Jack Oakie and Jack Haley—Haley, by the way, does a surprisingly clever piece of work—are the song writers. Ginger Rogers is the true little girl pal who sticks through the hamburger and weiner era until at the end she shares the limousine and ermine transfiguration.

The best thing in the picture is the song-writing byway. Jack Oakie and Jack Haley—Haley, by the way, does a surprisingly clever piece of work—are the song writers. Ginger Rogers is the true little girl pal who sticks through the hamburger and weiner era until at the end she shares the limousine and ermine transfiguration.

The best thing in the picture is the song-writing byway. Jack Oakie and Jack Haley—Haley, by the way, does a surprisingly clever piece of work—are the song writers. Ginger Rogers is the true little girl pal who sticks through the hamburger and weiner era until at the end she shares the limousine and ermine transfiguration.

Song numbers include "Good Morning Glory," "Many Moons Ago," "I Wanna Meander With Miranda," and "You're Such a Comfort to Me." Thelma Todd, Gregory Ratoff and Lew Cody are other important figures in the cast.

Mind-Reader.

The Grand is presenting an added attraction this week in the person of one Simmet, described as the world's greatest "mentalizer." He is mind-reader of uncanny ability, who answers questions, thinks or guesses, in startlingly convincing manner. He appears in person at 2:45 and 9:15 daily and patrons may also write out the questions they desire answered, at any time, in the lobby of the theater.

Jimmy Beers, the Fox organist, is as usual excellent in his organoquale, while both theaters have short subjects on the screen which add considerably to the value of their programs.

Paramount Feature
"Is Jimmy and Sally"

"Jimmy and Sally," the new feature at the Paramount, starting its seven-day run today, is described as a wise-cracking romantic comedy. With music. It is said to be thoroughly suited to Jimmy Dunn's style and one of the abler productions of the current season. Claire Trevor, in a new spot as leading lady for Dunn, gives an interesting characterization.

Dunn is cast as a high-pressure press agent, who neglects his best girl for his business. She is really smart, as he thinks, however, and is largely responsible for what success he has won. Then he becomes involved with a night club beauty, with gangland stepping in to deal out some enthusiastic rough stuff.

Dunn sings, quite acceptably, "It's the Irish in Me."

Others in the cast include Harry Stephens, Lya Lys, Jed Prouty, Gloria Roy, Alma Lloyd and John Arledge. James Finlay directed from a screen play by Paul Schofield and Marguerite Roberts.

The Paramount short subjects include "The Radio Murder Mystery," a cartoon, "Galloping Fanny," and the Fox Movietone News.

Georgia Now Playing
Wells' "Invisible Man"

"The Invisible Man," which is now at the Georgia for a week's engagement, is one of the most surprising things the screen has yet done. The camera tricks by which the effect of invisibility of the leading character is presented must be listed among the greatest technical efforts of the screen.

Mrs. Murdock Euen, Mrs. Edward Van Winkle Jr., and Mrs. Howard Candler Jr., three of the actors in the Junior League puppet show which will be staged for two weeks, beginning Monday at 3 o'clock, in Rich's Broad street window. "Jack and the Beanstalk" will be the first week's presentation. Others in the cast will be Mrs. Wiley Ballard and Mrs. Keith Quarterman. A loud speaker will convey the players' voices. Staff photo by George Cornett.

Fugitive From Florida Gang Holds New Hope for Freedom

CHICAGO, Dec. 8.—(AP)—Encouraged by a municipal judge and backed by a sympathetic novelist, James A. La Rue held new hope tonight that he could defeat Florida justice and remain a fugitive from a Dade county chain gang.

"I wish I were as sure of long life as you are of freedom," Judge Alfred O. Erickson told the 27-year-old prisoner as he signed his removal from the state for 24 hours. Later in the day Chief Justice Philip J. Finnegan in criminal court granted a habeas corpus writ holding La Rue in the sheriff's custody until a full hearing December 14.

At the hearing, Judge Finnegan must decide whether La Rue goes back to the chain gang to finish a five-year term for housebreaking. He had been sentenced last December and escaped in April.

"They got me to plead guilty," La Rue told Judge Erickson in city court today, "by saying that I would probably be freed or given a light sentence. They told me they had my fingerprints on a sugar bowl in the shack and if I went before a jury on a plea of not guilty I would probably get 99 years."

Deputy Sheriff James Lewis Robinson, of Florida, arrived with an extradition writ signed by Governor Henry Horner, of Illinois, but Judge

It is so realistic that it is startling and the picture is bound to create much conversation and dispute as to how it is done.

The story is excellent, written as it was by H. G. Wells. It is the tale of a scientist who makes himself invisible but cannot regain visibility. He slowly goes mad, planning for single-handed world conquest. He commits several murders and, while the police of the entire countryside try desperately and, for long, futilely to catch him, the girl who loved him in his earlier days tries to persuade him back to decency and to help him regain normality.

The end, the only logical outcome of such a situation, is particularly clever.

"Lady for a Day" Back
On Screen at Rialto

Frank Capra's record-breaking picture of Damon Runyon's story, "Lady for a Day," comes back to the Rialto today for another week's showing. This picture ran for three consecutive weeks when first booked at the Rialto some months ago. It played always before capacity audiences.

Manager W. T. Murray has been requested, by many patrons, for a return engagement and he has at last been able to secure a print from the Columbia distribution offices. The demand for the picture is so great all over the country that it is difficult to secure a print not already engaged.

"Lady for a Day" boasts a story of appeal to every class of audience, while its cast won new laurels all around in this production. May Robson, Warren William, Guy Kibbee, Jean Parker, Walter Connolly, Ned Sparks, Glenda Farrell, Barry Norton are among the leading players.

There will, of course, be excellent short subjects also.

Robber Pleads Guilty.
OXFORD, Miss., Dec. 8.—(AP)—Sentence will be passed Monday by Federal Judge Allen Cox on Theodore Magruder Camp, of Memphis, who pleaded guilty in federal court to charges of holding up and robbing interstate freight trucks in Desoto, Panola and Tate counties.

Florida Baptists Vote
Beer Sellers' Boycott

PENSACOLA, Fla., Dec. 8.—(AP) Florida Baptists, under a resolution adopted by the state convention at its closing session here today would boycott merchants who sell beer.

Repeal of the national prohibition laws was decried in the resolution which said "We must now turn our attention to education of the youths of the land to the evils of alcohol as poison as destroyer of physical and spiritual life."

He said he was working on that BABY number... AND HE WAS!

Never was a composer less composed! He is clever with a baby grand—but this grand baby has him going! What songs—what fun—the laughs are LONG—the costumes SHORT!

Listen for "DID YOU EVER SEE A DREAM WALKING?" and you'll be...

DECISION IS DUE TODAY ON LEAS' EXTRADITION

Tennessee Supreme Court To Give Ruling in 2-Year-Old Legal Battle.

NASHVILLE, Tenn., Dec. 8.—(AP) A decision in the case of Colonel Luke Lea and Luke Lea Jr., who are resisting through habeas corpus proceedings extradition to North Carolina, is expected at tomorrow's session of the Tennessee supreme court. The decision will be on an appeal by the Leas from an adverse ruling in a lower court.

They were convicted at Asheville, N. C., more than two years ago of violating the state banking laws in connection with the failure of Asheville's Central Bank and Trust Company.

Colonel Lea, former United States senator, newspaper publisher and political power in Tennessee, was sentenced to six to ten years imprisonment. Lea Jr. was given the choice between paying \$25,000 in fines and costs or serving two to six years.

Did Not Return.

Released on bond pending determination of their appeals, the Leas came back to Tennessee and did not return to Asheville after the United States supreme court had declined to interfere with the North Carolina judgment. The Leas had requested the aid of Governor Hill McAlister for their extradition. Meantime, their bonds at Asheville had been ordered forfeited.

Last February Governor McAlister, after a hearing, held the father and son to be "fugitives from justice" and ordered their arrest and extradition. Thereupon the Leas went into the courts with a habeas corpus action.

At a hearing in April Criminal Judge J. T. Cunningham at Clarksville sustained North Carolina's demand for their extradition and quashed the writ he had issued them. The Leas then appealed to the state supreme court.

Nettles in Court.

Solicitor Zeb V. Nettles, who prosecuted the Leas at Asheville, will be in court to hear the decision and will be accompanied by Sheriff Lawrence Brown, of Buncombe county, North Carolina, and a deputy. The two officers were delegated by Governor McAlister as North Carolina's agents when he issued the fugitive warrant for the Leas.

Should Judge Cunningham's decision be affirmed by the high court, Lea and his son could ask a stay of execution while they sought a review by the United States supreme court. A reversal of the Clarksville judge's action in sustaining North Carolina's demand would end the case back to him. Then either side could appeal from Cunningham's later decision to the state supreme court and thence to the federal supreme court.

PENNSYLVANIAN HEADS
AMERICAN BRIDGE BODY

CINCINNATI, Ohio, Dec. 8.—(UP)—New officers elected here today by the American Bridge League were:

Ray Eisenlord, Erie, Pa., president; Nathan Kelly, Boston, vice president; William E. McKenney, Cleveland, secretary, and Russell J. Baldwin, Cleveland, treasurer. Mr. McKenney and Mr. Baldwin were re-elected.

The women's auxiliary elected Mrs. A. C. Hoffmeier, Cleveland, president, and Mrs. Thomas R. Costair, Philadelphia, vice president.

SCREEN EXECUTIVE
IS ROBBED OF \$60,000

LOS ANGELES, Dec. 8.—(AP)—Daylight burglars entered the home of Harry Rapp, producer at the Metro-Goldwyn-Mayer studios, and took furs and jewelry valued at approximately \$60,000 yesterday afternoon, the film executive reported to police. He said the stolen items were insured for \$15,000.

ROOSEVELT SEEKS DATA
ON D. C. LIVING COSTS

WASHINGTON, Dec. 8.—(AP)—President Roosevelt has called for a report on the cost of living in Washington preparatory to making recommendations on whether to continue the existing 15 per cent pay cut for government employees.

A reduction in this cut has been forecast, but the president has reached no decision.

Presidents' Club of Atlanta council of Parents and Teachers, held its second luncheon of the year on Thursday, at the Frances Virginia tea room, Mrs. A. A. Long, president, presiding. Several guests were present who held prominent offices in both state and national parent-teacher work. Among these visitors were Miss Marion Telford, of New York city, who is field representative of the National Safety Council, also safety chairman for the National Congress of Parents and Teachers. Among other guests present were Miss Kathleen Mitchell, state safety chairman; Mr. Charles G. Trowbridge, fifth district president; Mrs. Byron Matthews, president of Atlanta council; Mrs. J. D. Miller, just state president.

Roosevelt Auxiliary.

Theodore Roosevelt Auxiliary No. 2, United Spanish War Veterans, will meet at the Red Men's wigwam, 160 Central avenue, Sunday afternoon, December 10, at 1 o'clock. Thursday in time is due to the fact that General Snedley Butler will lecture at the city auditorium at 2:30 o'clock and members wishing to attend will have the privilege of being below. There will be an election of officers.

Birthday Party.

Mrs. J. P. Booth will entertain for her little daughter, Virginia Elizabeth Booth, in honor of her fourth birthday from 3 to 5 o'clock Monday afternoon.

Friendly Counsel BY CAROLINE CHATFIELD.

Problems of general interest submitted by readers will be discussed in this column. Correspondence invited. Write name and address in confidence to Caroline Chatfield care The Atlanta Constitution.

"Love Is the Fulfilling of the Law" of God and Man.

In quite a unique manner this birthday letter written by a woman to her 21-year-old boy comes to this column and is reproduced below with the belief that it may awaken responsive chords in many hearts.

CAROLINE CHATFIELD.

"My Dear Boy:

This is your twenty-first birthday and before the retina of my mind's eye a continuous movie reel is passing. The cradle, the runabout with its little saddle to which you were strapped, the kiddie coop, the kiddie cart, the hobby horse, the toy wagon, the tricycle, the bicycle, baseball bats, masks and mitts, football tuggery, Boy Scout paraphernalia, tennis rackets are all passing in review before me. Your suitcase is packed and locked, your suitcase closed, and we sit dumb and swollen throated waiting for the train to carry you away to college.

"This movie is a talkie, too. The child in the cradle cooed contentedly, the little boy in the runabout babbled nonsense, unintelligible but for the merry twinkle in his eye and the smile on his lips that show a few precious pearls. The little fellow on the hobby horse shouts to his steed, the little man that tugs at the tongue of his wagon, stops occasionally to get his breath and trudges on. A continuous bombardment of questions is fired at his companion and whether or not the little man comprehends the answers, to each of them he replies sagely, 'I understand it. Does he?' Perhaps not, for many of these queries are concerned with the deep philosophies of religion and of life.

"Night comes on and the vehicles are stored in their stables. There is a bright fire on the hearth and a warm glow in the heart. It's story time and time and then bedtime. Fairy stories that defy the disillusioning experiences of life, adventure stories that dwarf a Byrd expedition, Bible stories of people who lived and loved, of people who will never die, follow each other in quick succession.

"Games that tax endurance of mind and muscle are proposed: 'Hair Come Old Bear' and with one growl from a soft baby throat, grown people run to cover in attic, cellar, upstairs, downstairs, in my lady's chamber, they duck and hide but no matter where they go or how quiet they remain Old Bear smells them out and eats them up.

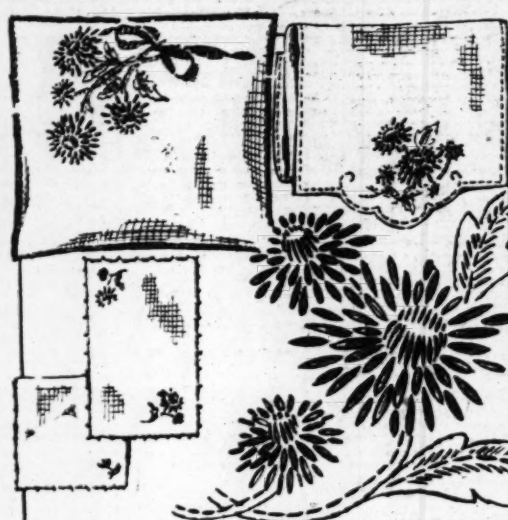

"Not long after Old Bear gets his quarry Old Bear comes for his and protesting the little victim is led to bed. 'Ain't it friends to sleep together?' comes the conjuring question. Can the companion who is putty in chubby fingers resist that plaintive appeal. No, a thousand times no. And so they crawl into bed together. When sleep has sealed their eyes the companion will crawl out again but a little boy who has faith in fairies has faith in a flesh and blood companion against the homing huggles securely. 'Are you comfortable?' he inquires considerably. 'Yes, very comfortable,' comes the answer. A day has come, a day has gone.

"The moving finger writes and having writ, moves on.

"Nor all your piety nor wit can lure it back to cancel half a line." "Today, my dear boy, you are 21 years old. You are still enjoying all the benefits and privileges that love can suggest. What they mean to you in after life depends on who and what, and how much you love. The greatest teacher of all time, Himself the model humanitarian, spoke of the abundant life, and taught that it consisted in loving service to the people whose lives one touched. Ambition may tempt a man to trample on anything that comes between him and the achievement of his ambition. Impatience for quick success may betray a man into disregarding the rights of others. Love alone will check inordinate ambition and love alone will make a man regard another's rights.

"Whether you take the Ten Commandments, or The Golden Rule, or The Law of Life and Let Live as your ideal of life, personal and public, you cannot make appreciable progress toward attaining it unless your heart has experienced the expansive and propulsive power of love."

HOUSEHOLD ARTS

by Alice Brooks
These Chrysanthemums Are Fun to Stitch
Pattern 5036

Early winter—the time when chrysanthemums are in their glory! Isn't it fun to catch them, just as they are, in simple stitchery and put a splashy spray on a cushion, with smaller sprays to match on the ends of a runner? They lend themselves to luncheon sets, tea napkins and lots of other articles that make most acceptable last-minute gifts. The flower is cleverly done in lay-daisy, with a single-stitch inside, so it isn't necessary to say that they are quick to embroider.

In pattern 5036 you will find a motif 9x15 inches, two motifs 6x9 inches, two motifs 4x12 inches, six motifs 2 inches high, and two runner edges as illustrated, suggestions for color and placing the motifs, and yardage requirements for a variety of articles. Price of pattern 10 cents.

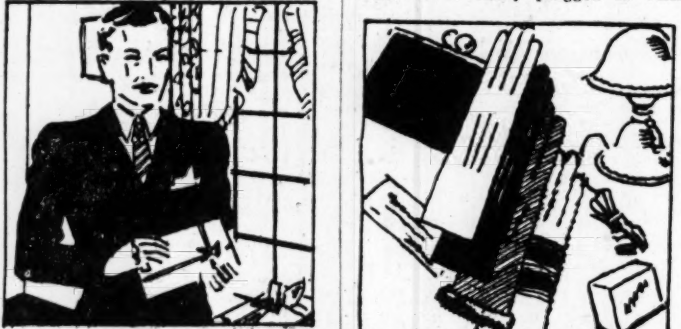

Send your order to Household Arts Department, The Constitution, Atlanta, Ga.

NANCY PAGE

Nancy Is Due for a Quartet of Surprises

BY FLORENCE La GANKE

Peter had spent a busy day shopping. He had gifts to buy for Joan, Junior, Susan, Nancy's mother, and father for Nancy herself. The store had promised to get the toilet water in the scent but so far it had not arrived. That was why he bought the small portable wall lamp that would be so easily plugged in where

ever Nancy carried it. It would give her another package to open. And then he was proud of the gloves—white kid gloves for evening, black ones for street, for lined ones for driving and woolen mittens for out-of-door sports. Pretty smooth—that present was. But a woman would not think of getting four things from one clerk at one time. He had a good system. And then he thought for a few minutes and went to his check book. Out came a blank check and when he tucked it in an envelope there was another gift for Nancy. Bless her, she deserved it.

Nancy has a leaflet of "Soups the Men Like." Send a stamped, self-addressed envelope with your request. Write Nancy Page care of The Atlanta Constitution.

(Copyright, 1933, for The Constitution.)

Birmingham Visitors Are Given Parties

Numbered among the attractive visitors spending the week-end in Atlanta are Mrs. George W. Connors, Mrs. Robert Meyer and her daughter, Mrs. Charles Meyer, and Mrs. Barney Ireland, all of Birmingham, Alabama.

Mr. and Mrs. John W. Grant Jr. entertained at an informal party at their home on Chatham road, honoring their mother, Mrs. Connors, and the other Alabamians.

Mrs. Meyer, the former Miss Lewis Butt, of Augusta, a noted belle and beauty, has a host of friends here who extend her a cordial welcome. She is the sister of Mrs. Louis Gohlstein, Mr. and Mrs. Edwin Johnson will entertain at a dinner this evening at their home on Peachtree road, in honor of Mrs. Meyer. The party later will attend the dinner-dance at the Piedmont Driving Club.

Dr. and Mrs. Graham Observe Anniversary.

Dr. and Mrs. B. J. W. Graham, observed the 50th anniversary of their marriage at their home, 570 St. Charles avenue, N. E., on Friday. Dr. Graham is financial secretary of the Georgia Baptist Orphan's Home, president and general manager of the Index Printing Company, and president of the Baptist Song Book Company.

He was born in Hickory Flat, Cherokee county, Georgia, and attended Mercer University, where he received an A. B. degree in 1894, and a D. D. degree in 1906. He married Miss Nancy Ann Samantha Thompson, of Tennessee, in 1884.

Dr. Graham has held pastorates including those of Locust Grove, Cochran, Conyers, Social Circle and First church, Hapeville, Hogansville, and was founder of Locust Grove Institute. He was editor and publisher of the Christian Index from 1900 to 1920, is a well-known author and traveler in Europe, America and the Orient.

WHITE'S RESIGNATION AS ENVOY REVEALED

PRAHA, Czechoslovakia, Dec. 8. (P)—The resignation of Francis White as American minister to Czechoslovakia was revealed for the first time today, although he left for the United States yesterday.

No reasons were given for the resignation, but his friends said he had been considering such action for some time.

Methodists Will Seek Quakers' War Status

NASHVILLE, Dec. 8. (P)—The general conference of the Methodist Episcopal Church, South, will be asked to seek for southern Methodist conscientious objectors to war the same legal status as Quakers and members of the Methodist Episcopal church occupy.

The Associate Council of Young People of the southern denomination decided yesterday to petition the general conference to take the necessary steps. The petition will be presented next May in Jackson, Mississippi.

Pronouncements on the types of amusements permissible to employ leisure time also will be sought.

ISLAND GIRL
by FRANK R. ADAMS

WHAT HAS GONE BEFORE. Vernon Maclean, wealthy young New Yorker and his friend, Dodd Speed, rescue an old man who has been thrown out of a gambling house and set upon by the "bouncers." In answer to a broadcast they take the unconscious old man to a battered yacht lying at a pier in New York. He proves to be the father of Irene Ferguson, owner of the yacht. Three other old men, astounded by the rescue, have been brought to the yacht and abandoned by their reward-seeking flunkies. The yacht has been deserted by its crew. Irene finds that her father has gambled away all her funds with which she entrusted him. She says she must set sail at once on a perilous mission though she is penniless. Vern agrees to ship on the Wings. After the yacht is well out of New York harbor, Irene finds that the other old men are below. They come on deck and demand to be taken back to New York. Irene says she will tell her story and then leave it to them whether they will go on or return. Irene says that she and her father and 12-year-old brother, Drury, live on an island called Little Gane Ker, off North Carolina. "Daddy" kidnapped Drury, put him in charge of Pete and announced that the boy would be kept hidden till ransom was paid. Her brother's life depends on her quick return to the island. She asks the men if they still want to turn back. The men decide to go on with the Wings. NOW ON X WITH THE

INSTALLMENT X.

They waited.

The rudder was no longer controlling their course. Vern could feel the ship's head swinging.

He looked at Irene inquiringly. She turned her eyes toward him. There was a strange light in them, a self-revelation of a serene, brave woman character which Vern had, cynically, never expected to see in the modern world.

"She inclined toward him. 'In case,' she whispered, he did not need to hear—'in case there should be no hereafter or—'

He leaned over her lips.

"My dear—"

It was so quiet beyond the reef that it seemed as if, perhaps, eternity had snatched them across its borders. The surf was still booming but it was hushed and the wind still howled but it was overhead, deflected by impact with the slight rise of the reef island.

Still the steady throb of the two-cylinder distributor in the hold assured them that they were still sailing terrestrial waters.

Irene was the first to laugh. "If my father could have as much luck as that we'd be the richest family in the world."

"No reference to their recent approach to reverence to sentiment. There wouldn't be, couldn't be, Vern could see that. With equal delicacy he sealed his own lips and his heart, but with a golden memory in it, and joined her on the crusting ice of convention once more.

"That was more than luck. It was marksmanship that would make William Tell proud enough to write another overture about it."

Irene thanked him with a pressure on his arm. She had been afraid perhaps that he would not understand her shift of base, that he would presume on her recent giving way to emotion.

"I'll take the wheel now," she suggested. "I know where we are and no one else could steer the course. It is rather tortuous."

"How far?"

"It will take several hours. When you go below to turn in give the engine plenty of oil all around and connect up the throttle and clutch from here."

"But I'll not go to bed now."

"Please do."

"Listen, captain, it isn't right or—"

"I'd rather be alone, Vern. You probably wouldn't and you'll humor me, won't you?"

Of course he would. And he was afraid he did understand. To be together now would not only be painful but it would subject them both to tempting temptations that would be at direct variance with the path of duty upon which she had set her feet.

So he went below.

He had no intention of sleeping.

He would keep out of sight, in accordance with Irene's wish but he would be ready in case she needed him.

So, as soon as he had attended to the wants of the motor and connected up the controls as she had requested, he sat down in the engine room to wait developments.

Vern did not calculate on the fact that he had been awake for nearly 48 hours and most of that time in a high wind. Nor did he take into account that his nerves had sagged after a tremendous emotional experience. Nor that it was warm below decks, warm and comparatively quiet. He fell asleep sitting up.

When he awakened it was broad daylight, the motor had stopped and the yacht was riding at anchor motionless.

The engine room was stuffy, a little hot, and Vern opened the port to let in some air.

The view was landward, a vista of low beach and receding live-oak, not so much as an especially inspiring picture. The beach looked as if it might be treacherously swampy and the forest background too dense for cheerfulness. Clear out the underbrush perhaps and you might achieve the effect of innocuous semitropical landscape. Vern was the feeling it gave was of a depressing nature trap, a place that might close around you as you entered it.

Most of the trees of the monotonous stunted height, tortuously attained by live-oaks with just a few slender exclamation points of pines that reared their startled height above the dead level.

One of those tall pines had been denuded of its lower branches and shot up in shamed nakedness to a small feathered tuft at the top, looking much like a Christmas tree elevated on a long pole. Casually Vern wondered what might be the idea.

There was no sign of the hand of man, no house, no human being stirring upon the beach, no sound even. There was a silence of damnation upon the place.

Vern shook himself. His impression was colored darkly, no doubt, from sleeping in a hot, closed room with his clothes on. His vapors would probably vanish in the fresh breath of uncontaminated morning air.

He would go on deck.

Vern opened the door into the cabin.

"Where's Mr. Ferguson?" Vern demanded when the passengers had acknowledged his presence.

"He went ashore with his daughter as soon as we arrived," Mr. MacLean replied complacently, and it has practically ruined our game. You can sit in and—"

Vern brushed the condescending invitation aside with an impatient gesture. "No, thank you. Went ashore with Miss Ferguson, you say? How long ago?"

"Two or three hours, at least," Mr. Snyder replied.

"It was before breakfast, anyway," corroborated the judge, "and it's still before breakfast, even yet so far as we are concerned."

"Wait a minute," MacLean fished in his pocket for a moment. "The captain left a note for you. Perhaps that will explain things."

The banker found the folded scrap of paper and handed it to him.

"Yer dear?" He would treasure that always, Vern thought, as he fell asleep. That makes everything much easier. I am going now to fulfill the alternative condition which I am sure will be accepted in force of the lost ransom money. You have already guessed what I intend to do. It was because we both knew this without talking about it that I did what I did just before we passed through the inlet last night. That was really good-bye for always or it would not have happened quite that way."

"You have been so very thoughtful—"

"You know what is in my heart. The sacrifice I am about to make will never blot you out, your name will be on my lips."

It was an incoherent little letter, written in haste and under terrific mental stress. She did not finish that sentence either.

"Do not attempt to follow me, man whom I trust. To do that will not only be dangerous but even if you should succeed in rescuing me you would merely frustrate the entire purpose of my plan. That's all. We've

already said good-bye and—much, much more, Irene."

Vern's expression did not change although a volcano was getting ready to erupt from within him. This was better and worse than he had dreamed. That she really cared for an unheroic, except in soul, person of not particularly gallant exterior was a thought almost too exhilarating to be borne. That she was going to death, or worse, with the acknowledgment of that caring fresh between them was even more intolerable.

It couldn't be. God couldn't let their love—yes, why not call it by the right name?—perish in the bud that way.

And yet her prohibition lay heavy on him. She was right. If "Daddy" Squales was the ruthless person she had described, and Vern had no reason to suppose that he was not, the first move to frustrate his plans would result in the death of Irene's brother and then Irene herself, because Vern knew that this girl, who had taken possession of his heart and imagination, was of a mettle that would not endure in shame after the excuse for sacrifice was ended.

Truly it was a desperate situation for a man who had the strings of destiny in his hands, doubly desperate since he also adored the woman who had just stepped off the rim of civilization into a jungle pit. A wrong move might, at any moment, stir up the beasts to a destroying fury.

What to do?

Vern started up the companionway. "Where's—?" Vern recognized the hum of a rifle bullet dusting by and ducked below once more.

"Forgot to tell you," Judge Hale offered. "We're not allowed on deck."

"So I see."

The prohibition was completely effective. There was no way to emerge from the cabin save by the aft companionway. There were no port-holes, but too small for a man to crawl through. So long as it was daylight and that marksmen stayed on duty Vern was caged. He would be of no use to Irene if he got himself killed or even wounded right away. He must save whatever of life and strength was in him in case there came an opportunity to place them at her service.

It was a long, hungry morning. The four men in the cabin hated each other. Vern could feel the time the sun had climbed to a position overhead where it could really heat up the interior in earnest. Vern stayed near a landward port and watched for developments on the beach.

For a long time there was none.

Vern noted a curious phenomenon. The tall pines, with the exception of the one which had been bereft of its lower branches, tossed restlessly back and forth. That meant that a high wind still prevailed outside, cut off from the lower levels by the density of the live oak barrier. But, that being the case, why was not that one pine affected by the disturbance? There must be some logical explanation but Vern could not figure it out. All around, its brethren rocked and bent but it alone, stood straight and untroubled, almost motionless.

Vern cast his eyes along the beach, speculating on the cause of its immobility, therefore did not at first see the signs of activity on the beach. Not until a small boat putting out from a few small pines moved across the lower half of his range of vision did he realize that something was about to happen.

There came a single figure in the boat. Another, Vern observed, remained on the beach.

As the onramp drew nearer it became clear that he was a man and by the short stiff strokes which he took with the oars he stamped himself a man of many rheumatic years. Age plus a damp climate had made him a wooden jointed being animated as if by strings from overhead.

Vern rather easily identified him as Krebs from Irene's earlier description of the members of the island's household.

"There is somebody coming from shore," he called to the passengers in the main cabin. "Probably some sort of communication from the enemy."

Several boat lengths away from "Wings" the clanking of the oars ceased. "Aho!" a quavering voice yelled.

Continued Tomorrow.
